

2021 Annual Report

Own *a piece of* TEXAS®

To Our Stockholders:

The year 2021 was a year of challenges and changes throughout. Although market instabilities, supply chain disruptions, and uncertainty started and finished the year, our stockholders' and employees' hard work and dedication to agriculture led Plains Land Bank to have a record income year, with continued robust loan growth and strong credit quality.

Agriculture has, and continues to be, a strong driving force in today's economy as farmers and ranchers continue to provide food and fiber to the world.

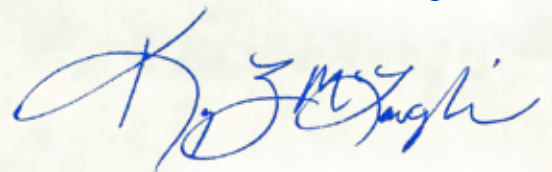

Our team of experts, who have a heart for agriculture lending, governed by an engaged board, have been here and continue to be here to help our stockholders every step of the way as they maneuver through these unprecedented times.

They do this through the cooperative model that the Farm Credit System was built on by providing a stable source of funding while returning profits to our stockholders through our patronage program.

We understand that time is a valuable resource in this ever-changing environment and our team is dedicated to improving efficiencies and expanding the use of technologies to effectively serve our customers. Our team truly cares and understands the individual needs of each of our stockholders. They recognize the uniqueness of your operation, and will service your specific financial credit needs into the future.

With so many uncertainties, one thing is sure; Plains Land Bank has been here for over 100 years and will continue to fulfill its mission of "Helping People Own a Piece of Texas" for generations to come.

Best Regards,

Kay Lynn McLaughlin
Chief Executive Officer

Plains Land Bank *Board of Directors*

Lyle Miller, Chairman

Lyle grew up in the Sandhills community outside of Floydada. He and his wife of 36 years, La Tresa, have raised their family on the same farm where Lyle and his father before him were raised. Lyle graduated from Floydada High School before attending junior college and returning home to farm. He and La Tresa raised a son and two daughters and currently

have four grandchildren. Lyle has farmed full-time for 43 years and has ownership in a family-owned cotton gin. He primarily produces cotton and corn, along with a few small portions of wheat and sorghum.

“My passion is to be a good steward of the land God has provided me,” says Lyle. “Plains Land Bank has played a major role in that since 1986.”

Randy Darnell, Vice Chairman

Randy was raised in Amarillo in a typical suburban household. His parents both worked outside the home - his mom, a teacher, and his dad, a leasing superintendent for Santa Fe Railroad. Randy is a 1979 graduate of Amarillo High School and a 1983 graduate of Texas Tech University with a degree in agricultural economics. He married his wife, Lisa, in 1983,

and they have three children and two grandchildren. Randy began full-time farming in 1983 and now grows wheat, corn, cotton and sorghum and runs a cow/calf operation.

“When purchasing my first farm, I was encouraged to look into using the Land Bank by my commercial banker,” Randy says. “I’ve never had a land loan anywhere else. The people and ease of the lending options keep me coming back.”

Dennis Babcock, Director

Dennis was born and raised in the Groom area. He graduated from Groom High School and then attended West Texas A&M University, where he earned a degree in agricultural business and economics. Dennis has been farming full-time since he graduated from WTAMU in 1973. He farms with his two sons, growing wheat, corn, cotton,

sorghum and cattle. He also has five grandchildren, who keep him busy.

“My father recommended the Land Bank when I got my first opportunity to ‘Own a Piece of Texas’ and I have been here ever since,” Dennis says. “Best people, best rates, best deal... I wouldn’t consider another option.”

Daniel L. Krienke, Director

Danny was born and raised in Lipscomb and Ochiltree counties. After graduating from Follett High School, he later went on to attend Clarendon College. His grandad bought land in the area in 1923, and Danny is now the third generation farming that land. He began farming full-time in 1974 and today primarily grows dryland wheat and sorghum with

a small amount of irrigated corn. Danny and his wife, Katie, raised two sons and now have eight grandchildren.

“Plains Land Bank helped my grandfather through the Depression and Dust Bowl, and my father after him,” he says. “Now I am the third-generation Plains Land Bank stockholder.”

Rusty Henson, Director, Audit Committee Chairman

Rusty grew up on a ranch southwest of Canyon. He attended Canyon schools and then West Texas State University, where he graduated with a degree in agriculture business. After graduation, Rusty married his wife, Janice, who is now a retired special education teacher. They have two sons, one of whom

manages the ranch southwest of Canyon. They also have four granddaughters. Rusty began farming in 1975 and raises primarily cattle and some wheat.

“We got our first loan from the Floydada Land Bank in 1978 to purchase my great-grandfather’s estate. We chose the Land Bank because they offered long-term real estate loans at a competitive interest rate,” says Rusty.

Steve Radar, Director

Steve was raised on his family’s ranch in Lipscomb County. After graduating from Canadian High School, he earned a degree in general agriculture from Oklahoma State University, then came home to farm and ranch with his dad. In 1981, he married his wife, Linda, a school teacher. They raised three children, and they now have five grandchildren.

Steve operates a cow/calf herd in Lipscomb and Hemphill counties, and grows several hundred acres of crops.

“I stand on the shoulders of my dad and grandfather, who closed his first Land Bank Loan in 1926,” says Steve. “Linda and I came to Plains Land Bank because of a good friend’s recommendation. He steered us right! The Land Bank has been a true blessing to me and my entire family for many years.”

Don R. James, Director

Don was born in Olton and has lived in the Plainview area most of his life. He graduated from Plainview High school and then joined the Army National Guard for a six-year enlistment. After returning home, he attended both Wayland Baptist University and Texas Tech University. Don's wife, Karen, is a retired school teacher. They have a son, a daughter and

five grandchildren.

"With help from my dad and FHA, I was able to purchase land with a Federal Land Bank loan while I was still serving part-time in the Army National Guard," says Don. "The Land Bank has always been a big part of our operation."

Lea Stuke, CPA, Outside Director, Audit Committee Vice Chairwoman

Lea Stuke was appointed to the board as an outside director in 2016 and is vice chair of the Audit Committee. She's an owner of Lewis, Kaufman, Reid, Stuke, Gattis & Co., a CPA firm in Plainview, Texas and specializes in tax planning, preparation, payroll services and business consultation.

Ms. Stuke holds a Business Administration degree from West Texas A&M University.

"Plains Land Bank has such a strong reputation as being a 'farmer's friend' in the banking world," says Lea. "The people at Plains Land Bank specialize in agriculture lending, so they are very familiar with the unique aspects of the ag economy. That specialized knowledge, along with the solid integrity of the Plains Land Bank staff, provides a great foundation for its patrons to build on."

Mallory Vestal, Ph.D., Outside Director, Compensation Committee Vice Chairwoman

Mallory grew up in Tulia. She received her bachelor's degree in agribusiness from West Texas A&M University and then went on to Oklahoma State University, where she earned her master's and her Ph.D. Mallory still returns home to Tulia to help her parents

with their operation. She has been an associate professor of agriculture business and economics at West Texas A&M University since the fall of 2012.

"It has been a great pleasure to be an external board member for Plains Land Bank," Mallory says. "I continue to be impressed by the caliber of people associated with this bank. The high work ethic, moral values, and positive culture are what make Plains Land Bank exceptional."

Jerrell K. Key, Director, Compensation Committee Chairman

Jerrell was raised in Lubbock and attended Monterey High School. He later attended Texas Tech University, where he received an agricultural economics degree and a business finance degree. Jerrell married his wife, Holly, in 1993. They have raised a daughter and two sons together, living in

Gruver since 2001. Jerrell has been the general manager of Adobe Walls Gin, LP since the gin's inception in 2006. He also owns and operates a commercial cow herd and a seedstock operation of predominantly Red Angus cattle. In addition, he raises wheat, cotton, and corn.

"I chose Plains Land Bank for two reasons: I worked for the Federal Land Bank of Brady right out of college, and knew Land Banks to have excellent lenders who knew their jobs," Jerrell says. "Additionally, as a former Masked Rider at Texas Tech, I have known and respected Jess Wall, another former Masked Rider and former Plains Land Bank employee, for over 31 years."

Ryan T. Berry, Director

Ryan T. Berry was elected to the Plains Land Bank board of directors in June of 2021. He resides in Panhandle, Texas, and has a Bachelor of Science degree in agricultural and applied economics from Texas Tech University where he graduated cum laude in 2012. He started his operation in 2016, primarily producing cotton, sorghum, and

corn, after years of working on local farms. Ryan's operation has since grown to include his brother.

"I bank with Plains Land Bank because they were willing to take a chance with me when I started farming and they truly care about our success. The thing I enjoy most about being on the Board of Directors is learning about the inter-workings of Plains Land Bank and the Farm Credit System," Ryan says.

REPORT OF MANAGEMENT

The financial statements of Plains Land Bank, FLCA (Association) are prepared by management, who is responsible for the statements' integrity and objectivity, including amounts that must necessarily be based on judgments and estimates. The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America. Other financial information included in the annual report is consistent with that in the financial statements.

To meet its responsibility for reliable financial information, management depends on the Farm Credit Bank of Texas' and the Association's accounting and internal control systems, which have been designed to provide reasonable, but not absolute, assurance that assets are safeguarded, and transactions are properly authorized and recorded. The systems have been designed to recognize that the cost of controls must be related to the benefits derived. The financial statements are audited by PricewaterhouseCoopers LLP, independent accountants, who also conduct a review of internal controls to the extent necessary to comply with auditing standards solely for the purpose of establishing a basis for reliance thereon in determining the nature, extent and timing of audit tests applied in the audit of the financial statements in accordance with auditing standards generally accepted in the United States of America. The Association is also examined by the Farm Credit Administration.

The board of directors has overall responsibility for the Association's systems of internal control and financial reporting. The board consults regularly with management and reviews the results of the audits and examinations referred to previously.

The undersigned certify that we have reviewed this annual report, that it has been prepared in accordance with all applicable statutory and regulatory requirements, and that the information contained herein is true, accurate and complete to the best of our knowledge or belief.

REPORT OF AUDIT COMMITTEE

The Audit Committee (committee) is composed of the entire board of directors of Plains Land Bank, FLCA. In 2021, seventeen (17) committee meetings were held. The committee oversees the scope of Plains Land Bank, FLCA's system of internal controls and procedures, and the adequacy of management's action with respect to recommendations arising from those auditing activities. The committee's approved responsibilities are described more fully in the Audit Committee Charter, which is available on request or on Plains Land Bank, FLCA's website. The committee approved the appointment of PricewaterhouseCoopers LLP (PwC) for 2021.

Management is responsible for Plains Land Bank, FLCA's internal controls and the preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America. The financial statements are prepared under the oversight of the committee. PwC is responsible for performing an independent audit of Plains Land Bank, FLCA's financial statements in accordance with auditing standards generally accepted in the United States of America and for issuing a report thereon. The committee's responsibilities include monitoring and overseeing these processes.

In this context, the committee reviewed and discussed Plains Land Bank, FLCA's audited financial statements for the year ended December 31, 2021 (audited financial statements) with management and PwC. The committee also reviews with PwC the matters required to be discussed by authoritative guidance "The Auditor's Communication With Those Charged With Governance," and both PwC's and Plains Land Bank, FLCA's internal auditors directly provide reports on significant matters to the committee.

The committee discussed with PwC its independence from Plains Land Bank, FLCA. The committee also reviewed the nonaudit services provided by PwC and concluded that these services were not incompatible with maintaining the independent accountant's independence. The committee has discussed with management and PwC such other matters and received such assurances from them as the committee deemed appropriate.

Based on the foregoing review and discussions and relying thereon, the committee recommended that the board of directors include the audited financial statements in Plains Land Bank, FLCA's Annual Report to Stockholders for the year ended December 31, 2021.

*Effective January 1, 2017, the new regulatory capital ratios were implemented by the Association. The Association's ratios remained well above the regulatory minimums, including the conservation and leverage buffers at December 31, 2021. For more information, see Note 10 in the accompanying financial statements, "Members Equity" included in this annual report.

**MANAGEMENT’S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(Unaudited)**

The following commentary explains management’s assessment of the principal aspects of the financial condition and results of operations of Plains Land Bank, FLCA (Association) for the years ended December 31, 2021, 2020, and 2019, and should be read in conjunction with the accompanying financial statements. The accompanying financial statements were prepared under the oversight of the Association’s audit committee.

Forward-Looking Information:

This annual information statement contains forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict. Words such as “anticipates,” “believes,” “could,” “estimates,” “may,” “should,” “will” or other variations of these terms are intended to identify the forward-looking statements. These statements are based on assumptions and analyses made in light of experience and other historical trends, current conditions and expected future developments. However, actual results and developments may differ materially from the Association’s expectations and predictions due to a number of risks and uncertainties, many of which are beyond our control. These risks and uncertainties include, but are not limited to:

- political, legal, regulatory and economic conditions and developments in the United States and abroad;
- economic fluctuations in the agricultural, rural utility, international and farm-related business sectors;
- weather-related, disease-related and other adverse climatic or biological conditions that periodically occur that impact agricultural productivity and income;
- changes in United States government support of the agricultural industry and the System as a government-sponsored enterprise, as well as investor and rating agency reactions to events involving the U.S. government and government-sponsored enterprises; and
- actions taken by the Federal Reserve System in implementing monetary policy.

Significant Events:

In January 2021, a patronage of \$8,800,000 was declared. This patronage was subsequently paid in March 2021.

In January 2020, a patronage of \$8,500,000 was declared. The patronage was subsequently paid in March 2020. In March 2020 and April 2020, additional patronage amounts of \$29,689 and \$1,263, respectively, were declared and disbursed resulting in a total patronage of \$8,530,952 for 2020.

In January 2019, a patronage of \$8,200,000 was declared. This patronage was subsequently paid in March 2019.

Patronage Refunds Received From FCBT:

In December 2021, the Association received a direct loan patronage of \$4,387,735 from the Farm Credit Bank of Texas (Bank), representing 60 basis points on the average daily balance of the Association’s direct loan with the Bank. During 2021, the Association received \$278,592 in patronage payments from the Bank, based on the Association’s stock investment in the Bank. The Association also received a capital markets patronage of \$21,185 from the Bank, representing 75 basis points on the Association’s average balance of participations in the Bank’s patronage pool program. In addition, the Association also received capitalized participation pool patronage of \$49,635 from the Bank.

In December 2020, the Association received a direct loan patronage of \$3,409,909 from the Bank, representing 53 basis points on the average daily balance of the Association’s direct loan with the Bank. During 2020, the Association received \$293,702 in patronage payments from the Bank, based on the Association’s stock investment in the Bank. Also, the Association received a capital markets patronage of \$21,961 from the Bank, representing 75 basis points on the Association’s average balance of participations in the Bank’s patronage pool program.

In December 2019, the Association received a direct loan patronage of \$2,596,416 from the Bank, representing 46 basis points on the average daily balance of the Association’s direct loan with the Bank. During 2019, the Association received \$314,021 in patronage payments from the Bank, based on the Association’s stock investment in the Bank. Also, the Association received a capital markets patronage of \$39,836 from the Bank, representing 75 basis points on the Association’s average balance of participations in the Bank’s patronage pool program.

For more than 100 years, the Association has continued to provide its members with quality financial services. The board of directors and management remain committed to maintaining the financial integrity of the Association while offering competitive loan products that meet the financial needs of agricultural producers.

Conditions in the Texas District:

The United States has been operating under a presidentially declared emergency since March 13, 2020, due to the Coronavirus Disease 2019 (also referred to as COVID-19). COVID-19 cases reported in the U.S. and within the district have fluctuated widely in recent months due to several factors, including the emergence of new variants and associated governmental responses. Throughout this unprecedented time, the Bank has continued to fulfill its mission to support agriculture and rural communities by providing access to reliable and consistent credit.

The U.S. Bureau of Economic Analysis, in its December 22 release, estimated that real GDP increased at an annual rate of 2.3% in the third quarter, down from 6.7% in the second quarter of 2021. The deceleration of GDP growth occurred due to lower personal consumption expenditures, which were likely influenced by the ongoing COVID-19 pandemic. As of January 10, the Federal Reserve Bank of Atlanta estimates that real GDP growth was about 6.8% during the fourth quarter of 2021. The International Monetary Fund's latest World Economic Outlook released in October 2021 estimates that U.S. real GDP growth will be 5.2% during 2022.

Inflationary pressures persisted during the fourth quarter. The Consumer Price Index for All Urban Consumers increased by 6.8% for the 12 months ending November 2021, the largest 12-month increase since the period ending June 1982.

According to the U.S. Bureau of Labor Statistics, the U.S. unemployment rate declined to 3.9% in December, the lowest level observed since February 2020. As of November 2021, the unemployment rates in the District states ranged from a low of 3.1% in Alabama to a high of 6.2% in New Mexico.

The West Texas Intermediate (WTI) crude oil futures price (front-month) increased to an average of about \$77 per barrel during the fourth quarter of 2021. This represents a significant increase from the \$43 per barrel average observed during the fourth quarter of 2020. In its December Short-Term Energy Outlook (STEO), the U.S. Energy Information Administration estimated that WTI prices would average about \$66 per barrel during 2022, down about \$2 per barrel from 2021.

The U.S. Department of Agriculture (USDA) estimates that net farm income reached about \$116.82 billion in 2021, an increase of about 23.2% year-over-year. The increase in net farm income is anticipated to have been driven by higher cash receipts for both crop and livestock products compared to the prior year. Increased cash receipts were partially offset by lower government payments and higher farm production expenses. Direct government payments, which more than doubled in 2020 to \$45.7 billion, fell to an estimated \$27.2 billion in 2021. Despite the significant year-over-year decline, direct government payments remain elevated relative to historical standards.

According to USDA's December 2021 World Agricultural Supply and Demand Estimates report, average farm prices for corn, soybeans and cotton are estimated to have experienced significant appreciation during the 2020/21 marketing year. This trend is anticipated to continue for all crops during the 2021/22 marketing year. Farm prices for major livestock and dairy products, including steers, broilers, eggs and milk, similarly experienced price appreciation during calendar year 2021. Although steer and milk prices are anticipated to continue to increase during 2022, barrow and gilt, broiler, and egg prices are likely to decline somewhat in the upcoming year.

During 2022, agricultural producers may be negatively affected by several factors, including volatile commodity prices, export market disruptions, a recovering global economy, and weather-related challenges. The Association loan portfolio is well-supported by industry diversification and conservative advance rates. Additionally, a high percentage of the Association's borrowers primarily rely on non-farm sources of income to repay their loans.

Loan Portfolio:

The Association makes and services loans to farmers, ranchers, rural homeowners, and certain farm-related businesses. The Association's loan volume consists of long-term farm mortgage loans. These loan products are available to eligible borrowers with competitive variable, fixed, adjustable, and prime-based interest rates. Loan maturities range from five to 30 years, with 15- to 20-year maturities comprising the majority of the mortgage loans. Loans serviced by the Association offer several installment payment cycles, the timing of which usually coincides with the seasonal cash-flow capabilities of the borrower.

The composition of the Association's loan portfolio, including principal less funds held of \$871,649,828, \$792,907,347, and \$709,189,898 as of December 31, 2021, 2020, and 2019, respectively, is described more fully in detailed tables in Note 3 to the financial statements, "Loans and Allowance for Loan Losses" included in this annual report.

Purchase and Sales of Loans:

During 2021, 2020, and 2019, the Association was participating in loans with other lenders. As of December 31, 2021, 2020, and 2019, these participations totaled \$97,996,077, \$105,748,200, and \$97,023,659, or 11.2 percent, 13.3 percent, and 13.7 percent of loans, respectively. Included in these amounts are participations purchased from entities outside the District of \$683,532, \$719,683, and \$690,775, or 0.1 percent, 0.1 percent, and 0.1 percent of loans, respectively. The Association additionally purchased participations from outside of the Farm Credit System of \$7,348,534, \$1,752,553, and \$5,301,089, or 0.8 percent, 0.2 percent, and 0.7 percent of loans during 2021, 2020, and 2019, respectively. The Association has also sold participations of \$33,794,763, \$5,547,715, and \$5,959,573 as of December 31, 2021, 2020, and 2019, respectively.

Risk Exposure:

High-risk assets include nonaccrual loans, loans that are past due 90 days or more and still accruing interest, formally restructured loans, and other property owned, net.

The following table illustrates the Association's components and trends of high-risk assets serviced for the prior three years as of December 31:

	2021		2020		2019	
	Amount	%	Amount	%	Amount	%
Nonaccrual	\$ 2,115,427	100.0%	\$ 1,416,452	100.0%	\$ 1,958,088	100.0%
Total	\$ 2,115,427	100.0%	\$ 1,416,452	100.0%	\$ 1,958,088	100.0%

At December 31, 2021, 2020, and 2019, loans that were considered impaired were \$2,115,427, \$1,416,452, and \$1,958,088, representing 0.2 percent, 0.2 percent, and 0.3 percent of loan volume, respectively. Impaired loans consist of all high-risk assets except other property owned, net.

Except for the relationship between installment due date and seasonal cash-flow capabilities of the borrower, the Association is not affected by any seasonal characteristics. The factors affecting the operations of the Association are the same factors that would affect any agricultural real estate lender.

Allowance for Loan Losses:

The following table provides relevant information regarding the allowance for loan losses as of, or for the year ended, December 31:

	2021	2020	2019
Allowance for loan losses	\$ 2,376,000	\$ 2,963,862	\$ 2,074,313
Allowance for loan losses to total loans	0.3%	0.4%	0.3%
Allowance for loan losses to nonaccrual loans	112.3%	209.2%	105.9%
Allowance for loan losses to impaired loans	112.3%	209.2%	105.9%
Net charge-offs to average loans	0.1%	0.0%	0.0%

The allowance is based on a periodic evaluation of the loan portfolio by management in which numerous factors are considered, including economic conditions, loan portfolio composition, collateral value, portfolio quality, current production conditions and economic conditions, and prior loan loss experience. Management may consider other qualitative factors in determining and supporting the level of allowance for loan losses including but not limited to: the concentration of lending in agriculture, combined with uncertainties associated with farmland values, commodity prices, exports, government assistance programs, regional economic effects, borrower repayment capacity, depth of lender staff, and/or past trends, and weather-related influences.

Based upon ongoing risk assessment and the allowance for loan losses procedures outlined above, the allowance for loan losses of \$2,376,000, \$2,963,862, and \$2,074,313 at December 31, 2021, 2020, and 2019, respectively, is considered adequate by management to compensate for inherent losses in the loan portfolio at such dates. Allowance coverage is adequate due to the Association's allowance methodology, historical losses, and first lien real estate.

Results of Operations:

The Association's net income for the year ended December 31, 2021, was \$18,334,698 as compared to \$16,968,546 for the year ended December 31, 2020, reflecting an increase of \$1,366,152, or 8.1 percent. The Association's net income for the year ended December 31, 2019 was \$15,124,222. Net income increased \$1,844,324, or 12.2 percent, in 2020 versus 2019.

Net interest income for 2021, 2020, and 2019 was \$23,260,996, \$20,728,680, and \$18,959,659, respectively, reflecting increases of \$2,532,316, or 12.2 percent, for 2021 versus 2020 and \$1,769,021, or 9.3 percent, for 2020 versus 2019. Net interest income is the principal source of earnings for the Association and is impacted by volume, yields on assets and cost of debt. The effects of changes in average volume and interest rates on net interest income over the past three years are presented in the following tables:

	2021		2020		2019	
	Average Balance	Interest	Average Balance	Interest	Average Balance	Interest
Loans	\$ 843,023,595	\$ 39,245,690	\$ 747,691,334	\$ 37,485,932	\$ 670,452,120	\$ 36,787,984
Interest-bearing liabilities	727,540,518	15,984,694	639,614,595	16,757,252	567,980,201	17,828,325
Impact of capital	\$ 115,483,077		\$ 108,076,739		\$ 102,471,919	
Net interest income		\$ 23,260,996		\$ 20,728,680		\$ 18,959,659

	2021	2020	2019
	Average Yield	Average Yield	Average Yield
Yield on loans	4.66%	5.01%	5.49%
Cost of interest-bearing liabilities	2.20%	2.62%	3.14%
Interest rate spread	2.46%	2.39%	2.35%

	2021 vs. 2020			2020 vs. 2019		
	Increase (decrease) due to			Increase (decrease) due to		
	Volume	Rate	Total	Volume	Rate	Total
Interest income - loans	\$ 4,779,578	\$ (3,019,820)	\$ 1,759,758	\$ 4,238,116	\$ (3,540,168)	\$ 697,948
Interest expense	2,303,571	(3,076,129)	(772,558)	2,248,532	(3,319,605)	(1,071,073)
Net interest income	\$ 2,476,007	\$ 56,309	\$ 2,532,316	\$ 1,989,584	\$ (220,563)	\$ 1,769,021

Interest income for 2021 increased by \$1,759,758, or 4.7 percent, compared to 2020, primarily due to increases in average loan volume offset by decreases in interest rates. Interest expense for 2021 decreased by \$772,558, or 4.6 percent, compared to 2020 due to decrease in interest rates offset by increases in volume. The interest rate spread increased by 7 basis points to 2.46 percent in 2021 from 2.39 percent in 2020, primarily because a decrease in the cost of funds. The interest rate spread increased by 4 basis points to 2.39 percent in 2020 from 2.35 percent in 2019, primarily because of a decrease in the cost of funds.

Noninterest income for 2021 increased by \$580,085, or 12.4 percent, compared to 2020, due primarily to an increase in Bank patronage. Noninterest income for 2020 increased by \$1,325,163, or 39.6 percent, compared to 2019, due primarily to an increase in Bank patronage.

Provisions for loan losses decreased by \$914,838, or 84.7 percent, compared to 2020, due primarily to a positive shift in risk ratings and the removal of the majority of the COVID-19 qualitative factor previously imposed.

Operating expenses consist primarily of salaries, employee benefits and purchased services. Expenses for purchased services may include administrative services, marketing, information systems, accounting, and loan processing, among others. In 2021, operating expenses increased \$2,661,087, or 36.2 percent compared to 2020 primarily due to an increase in salaries of \$1,934,513 and an increase in Insurance Fund premiums of \$540,405. In 2020, operating expenses increased \$497,236, or 7.3 percent compared to 2019 primarily due to an increase in salaries of \$264,549, an increase in occupancy and equipment of \$114,286, an increase in advertising of \$130,960, and an increase in Insurance Fund premiums of \$97,596.

Authoritative accounting guidance requiring the capitalization and amortization of loan origination fees and costs resulted in the capitalization of \$0, \$157,621, and \$536,367 for 2021, 2020, and 2019, respectively, in origination costs, which will be amortized over the life of the loans as an adjustment to yield in net interest income. The decrease in loan origination fees is due to the Association's adoption of a new system which automatically discounts loan fees as they are recorded. The capitalized costs consisted of salaries and benefits totaling \$603,812 related to the origination of loans. The \$2,661,087 increase in operating expenses included an increase of \$540,405 in premiums to the Insurance Fund, resulting from an increase in the premium rates from 11 basis points in 2020 to 16 basis points in 2021.

For the year ended December 31, 2021, the Association's return on average assets was 2.1 percent, as compared to 2.2 percent for the years ended December 31, 2020 and 2019, respectively. For the year ended December 31, 2021, the Association's return on average members' equity was 13.1 percent, as compared to 13.7 percent and 12.9 percent for the years ended December 31, 2020 and 2019, respectively.

Because the Association depends on the Bank for funding, any significant positive or negative factors affecting the operations of the Bank may have an effect on the operations of the Association.

Liquidity and Funding Sources:

The interest rate risk inherent in the Association's loan portfolio is substantially mitigated through the funding relationship with the Bank. The Bank manages interest rate risk through its direct loan pricing and asset/liability management process.

The primary source of liquidity and funding for the Association is a direct loan from the Bank. The outstanding balance of \$752,201,210, \$678,846,912, and \$601,301,197 as of December 31, 2021, 2020, and 2019, respectively, is recorded as a liability on the Association's balance sheet. The note carried a weighted average interest rate of 2.5 percent, 2.4 percent, and 2.3 percent at December 31, 2021, 2020, and 2019, respectively. The indebtedness is collateralized by a pledge of substantially all of the Association's assets to the Bank and is governed by a general financing agreement. The increase in note payable to the Bank and related accrued interest payable since December 31, 2020, is due to an increase in the Association's assets since the prior year. The Association's own funds, which represent the amount of the Association's loan portfolio funded by the Association's equity, were \$119,360,192, \$113,821,545, and \$107,448,432 at December 31, 2021, 2020, and 2019, respectively. The maximum amount the Association may borrow from the Bank as of December 31, 2021, was \$884,147,732 as defined by the general financing agreement. The indebtedness continues in effect until the expiration date of the general financing agreement, which is September 30, 2023, unless sooner terminated by the Bank upon the occurrence of an event of default, or by the Association, in the event of a breach of this agreement by the Bank, upon giving the Bank 30 calendar days' prior written notice, or in all other circumstances, upon giving the Bank 120 days' prior written notice.

The liquidity policy of the Association is to manage cash balances, to maximize debt reduction and to increase accrual loan volume. This policy will continue to be pursued during 2022. As borrower payments are received, they are applied to the Association's note payable to the Bank.

The Association will continue to fund its operations through direct borrowings from the Bank, capital surplus from prior years and borrower stock. It is management's opinion that funds available to the Association are sufficient to fund its operations for the coming year.

Capital Resources:

The Association's capital position remains strong, with total members' equity of \$149,528,989, \$139,920,761, and \$131,491,611 on December 31, 2021, 2020, and 2019, respectively.

Under regulations governing minimum permanent capital adequacy and other capitalization issues, the Association is required to maintain a minimum adjusted permanent capital of 7.0 percent of risk-weighted assets as defined by the FCA. The permanent capital ratio measures available at-risk capital relative to risk-weighted assets and off-balance-sheet contingencies. The ratio is an indicator of the association's financial capacity to absorb potential losses beyond that provided in the allowance for loss accounts. The Association's permanent capital ratio at December 31, 2021, 2020, and 2019 was 14.5 percent, 15.0 percent, and 15.9 percent, respectively.

Significant Recent Accounting Pronouncements:

In January 2021, the Financial Accounting Standards Board (FASB) issued an update to Reference Rate Reform whereby certain derivative instruments may be modified to change the rate used for margining, discounting, or contract price alignment. An entity may elect to apply the new amendments on a full retrospective basis as of any date from the beginning of an interim period that includes or is subsequent to March 12, 2020, or on a prospective basis to new modifications from any date within an interim period that includes or is subsequent to the date of the update, up to the date that financial statements are available to be issued. These amendments do not apply to contract modifications made or new hedging relationships entered into after December 31, 2022, and existing hedging relationships evaluated for effectiveness in periods after December 31, 2022. The Association adopted the guidance in the first quarter of 2021, and the impact was not material to the Association's financial condition or its results of operations.

In March 2020, the FASB issued guidance titled "Facilitation of the Effects of Reference Rate Reform on Financial Reporting." The guidance provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships and other transactions affected by reference rate reform. The guidance simplifies the accounting evaluation of contract modifications that replace a reference rate affected by reference rate reform and contemporaneous modifications of other contracts related to the replacement of the reference rate. With respect to hedge accounting, the guidance allows amendment of formal designation and documentation of hedging relationships in certain circumstances as a result of reference rate reform and provides additional expedients for different

types of hedges, if certain criteria are met. The optional amendments are effective as of March 12, 2020, through December 31, 2022. The Association applied the optional accounting expedients available under the guidance to debt and derivative contract modifications related to LIBOR transition in the fourth quarter of 2020. The impact of adoption was not material to the Association's financial condition or results of operations. In addition, the Association adopted the optional expedient as it relates to loans during the first quarter of 2021, and the impact of adoption was not material to the Association's financial condition or results of operations.

In June 2016, the FASB issued guidance titled "Measurement of Credit Losses on Financial Instruments." The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses. For public business entities that are not U.S. Securities and Exchange Commission filers, this guidance was to become effective for interim and annual periods beginning after December 15, 2020, with early application permitted. In November 2019, the FASB issued an update that amends the mandatory effective date for this guidance for certain associations. The change resulted from a change in the effective date philosophy that extends and simplifies the adoption by staggering the dates between large public entities and other entities. As a result of the change, the new credit loss standard, for those associations qualifying for the delay, becomes effective for interim and annual reporting periods beginning after December 15, 2022, with early adoption permitted. The Association qualifies for the delay in the adoption date. The Association continues to evaluate the impact of adoption on the Association's financial condition and its results of operations, with planned adoption for interim and reporting periods beginning after December 15, 2022.

Regulatory Matters:

At December 31, 2021, the Association was not under written agreements with the Farm Credit Administration.

On January 5, 2021, the FCA posted an informational memorandum providing guidance to the Farm Credit System on managing challenges associated with COVID-19. The informational memorandum provided supplements on flood insurance requirements, consumer financial protection, and electronic delivery of borrower rights notices. On January 12, 2021, the FCA posted a supplement to its January 5, 2021, informational memorandum, which provided updated guidance to Farm Credit System associations on issues related to COVID-19. The supplement covers regulatory capital requirements for Paycheck Protection Program loans. On January 28, 2021, the FCA posted a supplement to its January 5, 2021, informational memorandum, which provided updated guidance to Farm Credit System associations on issues related to COVID-19. The supplement discusses matters related to Association annual meetings and elections during the 2021 calendar year.

On February 5, 2021, the FCA posted an informational memorandum on maintaining and using stockholder lists. The informational memorandum provides associations with guidance on maintaining the lists and using them to establish who should receive voting and financial information.

On June 30, 2021, the FCA posted an advance notice of proposed rulemaking to seek public comments on how to amend or restructure bank liquidity regulations. The FCA is considering whether to amend the existing liquidity regulatory framework so banks can better withstand crises that adversely impact liquidity. The comment period ended on November 27, 2021.

On August 26, 2021, the FCA published a proposed rule in the Federal Register on defining and establishing risk-weightings for high-volatility commercial real estate (HVCRE) exposures. The comment period ended on January 24, 2022.

On September 9, 2021, the FCA adopted a final rule on the tier 1/tier 2 capital framework. The rule clarifies the regulations, simplifies certain requirements, and changes the lending and leasing limit base calculation to be computed using total capital instead of permanent capital. It also codifies guidance provided in FCA Bookletter 068. On October 1, 2021, the FCA published the final rule on the tier 1/tier 2 capital framework in the Federal Register. The final rule became effective on January 1, 2022.

On December 8, 2021, the FCA posted an informational memorandum on managing the LIBOR transition. The informational memorandum provides associations with guidance on the transition away from LIBOR, clarifies the meaning of new LIBOR contracts, and provides guidance on using alternative reference rates.

In 2021, 2020, and 2019, the Association paid patronage distributions of \$8,797,866, \$8,530,952, and \$8,200,000, respectively. In January 2021, the board of directors approved a \$8,800,000 patronage distribution to be paid in March 2021. In March 2021, an amount of \$2,134 was applied back to Retained Earnings resulting in a total patronage of \$8,797,866 for 2021. See Note 10 to the financial statements, "Members' Equity," included in this annual report, for further information.

Relationship With the Bank:

The Association's statutory obligation to borrow only from the Bank is discussed in Note 9 to the financial statements, "Note Payable to the Bank," included in this annual report.

The Bank's ability to access capital of the Association is discussed in Note 2 to the financial statements, "Summary of Significant Accounting Policies," included in this annual report, within the section "Capital Stock Investment in the Bank."

The Bank's role in mitigating the Association's exposure to interest rate risk is described in the section "Liquidity and Funding Sources" of Management's Discussion and Analysis and in Note 9 to the financial statements, "Note Payable to the Bank," included in this annual report.

The Bank provides computer systems to support the critical operations of all District associations. In addition, each association has operating systems and facility-based systems that are not supported by the Bank. As disclosed in Note 12 to the financial statements, "Related Party Transactions," included in this annual report, the Bank provides many services that the Association can utilize, such as administrative, marketing, information systems and accounting services. Additionally, the Bank bills District expenses to the associations, such as the Farm Credit System Insurance Corporation insurance premiums.

Summary:

Over the past 100 years, regardless of the state of the agricultural economy, your Association's board of directors and management, as well as the board of directors and management of the Bank, have been committed to offering their borrowers a ready source of financing at a competitive price. Your continued support will be critical to the success of this Association.

Report of Independent Auditors

To the Board of Directors of Plains Land Bank, FLCA

Opinion

We have audited the accompanying consolidated financial statements of Plains Land Bank, FLCA and its subsidiaries (the "Association"), which comprise the consolidated balance sheets as of December 31, 2021, 2020 and 2019, and the related consolidated statements of comprehensive income, changes in members' equity and cash flows for the years then ended, including the related notes (collectively referred to as the "consolidated financial statements").

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Association as of December 31, 2021, 2020 and 2019, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Association and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Association's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from

fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Association's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the information included in the 2021 Annual Report, but does not include the consolidated financial statements and our auditors' report thereon. Our opinion on the consolidated financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the consolidated financial statements or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Plains Land Bank, FCLA — 2021 Annual Report*

PLAINS LAND BANK, FLCA
NOTES TO FINANCIAL STATEMENTS

NOTE 1 — ORGANIZATION AND OPERATIONS:

- A. Organization: Plains Land Bank, FLCA (“the Association”), is a member owned cooperative which provides credit and credit-related services to, or for the benefit of, eligible borrowers/stockholders for qualified agricultural purposes in the counties of Armstrong, Briscoe, Carson, Floyd, Gray, Hale, southwest portion of Hall, Hansford, Hemphill, Hutchinson, Lipscomb, Motley, Ochiltree, Oldham, Potter, Randall, and Roberts in the state of Texas.

The Association is a lending institution of the Farm Credit System (System), a nationwide system of cooperatively owned banks and associations that was established by Acts of Congress to meet the credit needs of American agriculture and is subject to the provisions of the Farm Credit Act of 1971, as amended (Act). At December 31, 2021, the System consisted of three Farm Credit Banks (FCBs) and their affiliated associations, one Agricultural Credit Bank (ACB) and its affiliated associations, the Federal Farm Credit Banks Funding Corporation (Funding Corporation) and various service and other organizations.

The Farm Credit Bank of Texas (Bank) and its related associations are collectively referred to as the “District.” The Bank provides funding to all associations within the District and is responsible for supervising certain activities of the District associations. At December 31, 2021, the District consisted of the Bank, one FLCA and 13 ACA parent companies, which have two wholly owned subsidiaries, a FLCA and a PCA, operating in or servicing the states of Alabama, Louisiana, Mississippi, New Mexico and Texas. ACA parent companies provide financing and related services through their FLCA and PCA subsidiaries. The FLCA makes secured long-term agricultural real estate and rural home mortgage loans. The PCA makes short- and intermediate-term loans for agricultural production or operating purposes.

The Farm Credit Administration (FCA) is delegated authority by Congress to regulate the System banks and associations. The FCA examines the activities of System associations to ensure their compliance with the Farm Credit Act, FCA regulations, and safe and sound banking practices.

The Act established the Farm Credit System Insurance Corporation (FCSIC) to administer the Farm Credit Insurance Fund (Insurance Fund). The Insurance Fund is required to be used (1) to ensure the timely payment of principal and interest on Systemwide debt obligations, (2) to ensure the retirement of protected borrower capital at par or stated value and (3) for other specified purposes. The Insurance Fund is also available for the discretionary uses by the FCSIC of providing assistance to certain troubled System associations and to cover the operating expenses of the FCSIC. Each System bank has been required to pay premiums, which may be passed on to the Association, into the Insurance Fund, based on its annual average adjusted outstanding insured debt until the monies in the Insurance Fund reach the “secure base amount,” which is defined in the Farm Credit Act as 2.0 percent of the aggregate insured obligations (adjusted to reflect the reduced risk on loans or investments guaranteed by federal or state governments) or other such percentage of the aggregate obligations as the Insurance Corporation in its sole discretion determines to be actuarially sound. Under the Farm Credit Act, as amended, the FCSIC may return excess funds above the secure base amount to System banks, which may be passed on to the Association.

FCA regulations require borrower information to be held in strict confidence by Farm Credit associations, their directors, officers and employees. Directors and employees of the Farm Credit associations are prohibited, except under specified circumstances, from disclosing nonpublic personal information about members.

- B. Operations: The Act sets forth the types of authorized lending activity, persons eligible to borrow and financial services that can be offered by the Association. The Association is authorized to provide, either directly or in participation with other lenders, credit, credit commitments and related services to eligible borrowers. Eligible borrowers include farmers, ranchers, producers or harvesters of aquatic products, rural residents and farm-related businesses. The Association secured long-term real estate mortgage loans, with funding from the Bank.

The Association also serves as an intermediary in offering credit life insurance.

The Association’s financial condition may be affected by factors that affect the Bank. The financial condition and results of operations of the Bank may materially affect stockholders’ investments in the Association. Upon request, stockholders of the Association will be provided with the Farm Credit Bank of Texas Annual Report to Stockholders.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation and Consolidation

The financial statements (the “financial statements”) of the Association have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses; the valuation of deferred tax assets; the determination of fair value of financial instruments and subsequent impairment analysis.

The accounting and reporting policies of the Association conform to accounting principles generally accepted in the United States of America (GAAP) and prevailing practices within the banking industry. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Significant estimates are discussed in these footnotes, as applicable. Actual results could differ from those estimates.

A. Recently Issued or Adopted Accounting Pronouncements:

In January 2021, the Financial Accounting Standards Board (FASB) issued an update to Reference Rate Reform whereby certain derivative instruments may be modified to change the rate used for margining, discounting, or contract price alignment. An entity may elect to apply the new amendments on a full retrospective basis as of any date from the beginning of an interim period that includes or is subsequent to March 12, 2020, or on a prospective basis to new modifications from any date within an interim period that includes or is subsequent to the date of the update, up to the date that financial statements are available to be issued. These amendments do not apply to contract modifications made or new hedging relationships entered into after December 31, 2022, and existing hedging relationships evaluated for effectiveness in periods after December 31, 2022. The Association adopted the guidance in the first quarter of 2021, and the impact was not material to the Association’s financial condition or its results of operations.

In March 2020, the FASB issued guidance titled “Facilitation of the Effects of Reference Rate Reform on Financial Reporting.” The guidance provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships and other transactions affected by reference rate reform. The guidance simplifies the accounting evaluation of contract modifications that replace a reference rate affected by reference rate reform and contemporaneous modifications of other contracts related to the replacement of the reference rate. With respect to hedge accounting, the guidance allows amendment of formal designation and documentation of hedging relationships in certain circumstances as a result of reference rate reform and provides additional expedients for different types of hedges, if certain criteria are met. The optional amendments are effective as of March 12, 2020, through December 31, 2022. The Association applied the optional accounting expedients available under the guidance to debt and derivative contract modifications related to LIBOR transition in the fourth quarter of 2020. The impact of adoption was not material to the Association’s financial condition or results of operations. In addition, the Association adopted the optional expedient as it relates to loans during the first quarter of 2021, and the impact of adoption was not material to the Association’s financial condition or results of operations.

In June 2016, the FASB issued guidance titled “Measurement of Credit Losses on Financial Instruments.” The guidance replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. Credit losses relating to available-for-sale securities would also be recorded through an allowance for credit losses. For public business entities that are not U.S. Securities and Exchange Commission filers, this guidance was to become effective for interim and annual periods beginning after December 15, 2020, with early application permitted. In November 2019, the FASB issued an update that amends the mandatory effective date for this guidance for certain associations. The change resulted from a change in the effective date philosophy that extends and simplifies the adoption by staggering the dates between large public entities and other entities. As a result of the change, the new credit loss standard, for those associations qualifying for the delay, becomes effective for interim and annual reporting periods beginning after December 15, 2022, with early adoption permitted. The Association qualifies for the delay in the adoption date. The Association continues to evaluate the impact of adoption on the Association’s financial condition and its results of operations, with planned adoption for interim and reporting periods beginning after December 15, 2022.

- B. Cash: Cash, as included in the financial statements, represents cash on hand and deposits at banks.
- C. Loans and Allowance for Loan Losses: Long-term real estate mortgage loans generally have original maturities ranging from five to 30 years. Loans are carried at their principal amount outstanding adjusted for charge-offs and net deferred loan fees or costs. Interest on loans is accrued and credited to interest income based upon the daily principal amount outstanding. Authoritative accounting guidance requires loan origination fees and direct loan origination costs, if material, to be capitalized and the net fee or cost to be amortized over the life of the related loan as an adjustment to yield.

Impaired loans are loans for which it is probable that not all principal and interest will be collected according to the contractual terms of the loan and are generally considered substandard or doubtful, which is in accordance with the loan rating model, as described below. Impaired loans include nonaccrual loans, restructured loans, and loans past due 90 days or more and still accruing interest. A loan is considered contractually past due when any principal repayment or interest payment required by the loan instrument is not received on or before the due date. A loan shall remain contractually past due until it is formally restructured or until the entire amount past due, including principal, accrued interest and penalty interest incurred as a result of past-due status, is collected or otherwise discharged in full.

A restructured loan constitutes a troubled debt restructuring (TDR) if for economic or legal reasons related to the debtor's financial difficulties the Association grants a concession to the debtor that it would not otherwise consider. A concession is generally granted in order to minimize the Association's economic loss and avoid foreclosure. Concessions vary by program and are borrower-specific and may include interest rate reductions, term extensions, payment deferrals or the acceptance of additional collateral in lieu of payments. In limited circumstances, principal may be forgiven. A loan restructured in a troubled debt restructuring is an impaired loan.

Impaired loans are generally placed in nonaccrual status when principal or interest is delinquent for 90 days (unless adequately secured and in the process of collection), circumstances indicate that collection of principal and/or interest is in doubt or legal action, including foreclosure or other forms of collateral conveyance, has been initiated to collect the outstanding principal and interest. When a loan is placed in nonaccrual status, accrued interest deemed uncollectible is either reversed (if accrued in the current year) or charged against the allowance for loan losses (if accrued in prior years). Loans are charged-off at the time they are determined to be uncollectible.

Payments received on nonaccrual loans are generally applied to the recorded investment in the loan asset. If collection of the recorded investment in the loan is fully expected and the loan does not have a remaining unrecovered prior charge-off associated with it, the interest portion of payments is recognized as current interest income. Nonaccrual loans may be returned to accrual status when principal and interest are current, the borrower has demonstrated payment performance, and collection of future payments is no longer in doubt. If previously unrecognized interest income exists at the time the loan is transferred to accrual status, cash received at the time of or subsequent to the transfer is first recorded as interest income until such time as the recorded balance equals the contractual indebtedness of the borrower.

The Bank and related associations use a two-dimensional loan rating model based on an internally generated combined system risk-rating guidance that incorporates a 14-point risk-rating scale to identify and track the probability of borrower default and a separate scale addressing loss given default over a period of time. Probability of default is the probability that a borrower will experience a default within 12 months from the date of the determination of the risk rating. A default is considered to have occurred if the lender believes the borrower will not be able to pay its obligation in full or the borrower is past due more than 90 days. The loss given default is management's estimate as to the anticipated economic loss on a specific loan assuming default has occurred or is expected to occur within the next 12 months.

Each of the probability of default categories carries a distinct percentage of default probability. The 14-point risk-rating scale provides for granularity of the probability of default, especially in the acceptable ratings. There are nine acceptable categories that range from a borrower of the highest quality to a borrower of minimally acceptable quality. The probability of default between 1 and 9 is very narrow and would reflect almost no default to a minimal default percentage. The probability of default grows more rapidly as a loan moves from a "9" to other assets especially mentioned (OAEM) and grows significantly as a loan moves to a substandard (viable) level. A substandard (non-viable) rating indicates that the probability of default is almost certain.

The credit risk-rating methodology is a key component of the Association's allowance for loan losses evaluation and is generally incorporated into its loan underwriting standards and internal lending limit. The allowance for loan losses is maintained at a level considered adequate by management to provide for probable losses inherent in the loan portfolio. The allowance is based on a periodic evaluation of the loan portfolio by management in which numerous factors are considered,

including loan portfolio composition, collateral value, portfolio quality, current production conditions and economic conditions, and prior loan loss experience. Management may consider other qualitative factors in determining and supporting the level of allowances for loan losses including but not limited to: the concentration of lending in agriculture, combined with uncertainties associated with farmland values, commodity prices, exports, government assistance programs, regional economic effects, borrower repayment capacity, depth of lender staff, and/or past trends, and weather-related influences. The allowance for loan losses encompasses various judgments, evaluations and appraisals with respect to the loans and their underlying security that, by their nature, contain elements of uncertainty and imprecision. Changes in the agricultural economy and their impact on borrower repayment capacity will cause these various judgments, evaluations and appraisals to change over time.

The allowance for loan losses includes components for loans individually evaluated for impairment and loans collectively evaluated for impairment. Generally, for loans individually evaluated the allowance for loan losses represents the difference between the recorded investment in the loan and the present value of the cash flows expected to be collected discounted at the loan's effective interest rate, or at the fair value of the collateral, less estimated costs to sell, if the loan is collateral-dependent. For those loans collectively evaluated for impairment, the allowance for loan losses is determined using the risk-rating model.

Transfers of an entire financial asset, group of entire financial assets, or a participating interest in an entire financial asset are accounted for as sales when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when (1) the assets have been isolated from the Association, (2) the transferee obtains the right to pledge or exchange the transferred assets, and (3) the Association does not maintain effective control over the transferred assets.

The Association purchases loan and lease participations from other System and non-System entities to generate additional earnings and diversify risk related to existing commodities financed and the geographic area served. Additionally, the Association sells a portion of certain large loans to other System and non-System entities to reduce risk and comply with established lending limits. Loans are sold and the sale terms comply with requirements under ASC 860 "Transfers and Servicing."

- D. **Capital Stock Investment in the Farm Credit Bank of Texas:** The Association's investment in the Bank is in the form of Class A voting capital stock and allocated retained earnings. This investment is adjusted periodically based on the Association's proportional utilization of the Bank compared to other District associations. The Bank requires a minimum stock investment of 2 percent of the Association's average borrowing from the Bank. This investment is carried at cost plus allocated equities in the accompanying balance sheet.

If needed to meet regulatory capital adequacy requirements, the board of directors of the Bank may increase the percentage of stock held by an association from 2 percent of the average outstanding balance of borrowings from the Bank to a maximum of 5 percent of the average outstanding balance of borrowings from the Bank.

- E. **Other Property Owned, Net:** Other property owned, net, consists of real and personal property acquired through foreclosure or deed in lieu of foreclosure, and is recorded at fair value less estimated selling costs upon acquisition and is included in other assets in the balance sheet. Any initial reduction in the carrying amount of a loan to the fair value of the collateral received is charged to the allowance for loan losses. On at least an annual basis, revised estimates to the fair value less cost to sell are reported as adjustments to the carrying amount of the asset, provided that such adjusted value is not in excess of the carrying amount at acquisition. Income and expenses from operations and carrying value adjustments are included in net gains (losses) on other property owned in the statements of comprehensive income.
- F. **Premises and Equipment:** Premises and equipment are carried at cost less accumulated depreciation. Land is carried at cost. Depreciation is provided on the straight-line method using estimated useful lives of the assets. Gains and losses on dispositions are reflected in current operations. Maintenance and repairs are charged to operating expense, and improvements are capitalized. Long-lived assets are reviewed for impairment whenever events or circumstances indicate the carrying amount of an asset group may not be recoverable.
- G. **Advance Conditional Payments:** The Association is authorized under the Act to accept advance payments from borrowers. To the extent that the borrower's access to such funds is restricted, the advance conditional payments are netted against the borrower's related loan balance. Amounts in excess of the related loan balance and amounts to which the borrower has unrestricted access are presented as liabilities in the accompanying balance sheet. Advance conditional payments are not insured. Interest is generally paid by the Association on such accounts at rates established by the board of directors.
- H. **Employee Benefit Plans:** Employees of the Association participate in either the District defined benefit retirement plan (DB plan) or the defined contribution plan (DC plan). All eligible employees may participate in the Farm Credit Benefits Alliance

401(k) Plan. The DB plan is closed to new participants. Participants generally include employees hired prior to January 1, 1996. The DB plan is noncontributory and provides benefits based on salary and years of service. The “projected unit credit” actuarial method is used for financial reporting and funding purposes for the DB plan.

Participants in the DC plan generally include employees who elected to transfer from the DB plan prior to January 1, 1996, and employees hired on or after January 1, 1996. Participants in the DC plan direct the placement of their employers’ contributions, 5.0 percent of eligible pay for the year ended December 31, 2021, made on their behalf into various investment alternatives.

The structure of the District’s DB plan is characterized as multi-employer, since neither the assets, liabilities nor costs of the plan are segregated or separately accounted for by the associations. No portion of any surplus assets is available to the associations, nor are the associations required to pay for plan liabilities upon withdrawal from the plans. As a result, the associations recognize as pension cost the required contribution to the plans for the year. Contributions due and unpaid are recognized as a liability. The Association recognized pension costs for the DC plan of \$164,825, \$140,850 and \$130,549 for the years ended December 31, 2021, 2020, and 2019 respectively. For the DB plan, the Association recognized pension costs of \$449,286, \$239,534 and \$269,029 for the years ended December 31, 2021, 2020, and 2019, respectively.

The Association also participates in the Farm Credit Benefits Alliance 401(k) Plan, which requires the associations to match 100 percent of employee contributions up to 3.0 percent of eligible earnings and to match 50 percent of employee contributions for the next 2.0 percent of employee contributions, up to a maximum employer contribution of 4.0 percent of eligible earnings. Association 401(k) plan costs are expensed as incurred. The Association’s contributions to the 401(k) plan were \$146,353, \$120,761 and \$111,728 for the years ended December 31, 2021, 2020, and 2019, respectively.

In addition to pension benefits, the Association provides certain health care and life insurance benefits to qualifying retired employees (other postretirement benefits). These benefits are not characterized as multi-employer and, consequently, the liability for these benefits is included in other liabilities on the balance sheet.

- I. Patronage Refunds from the Farm Credit Bank of Texas: The Association records patronage refunds from the Bank on an accrual basis.
- J. Fair Value Measurement: The FASB guidance defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. It describes three levels of inputs that may be used to measure fair value:

Level 1 — Quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 1 assets and liabilities include debt and equity securities and derivative contracts that are traded in an active exchange market, as well as certain U.S. Treasury, other U.S. government and agency mortgage-backed debt securities that are highly liquid and are actively traded in over-the-counter markets. Also included in Level 1 are assets held in trust funds, which relate to deferred compensation and the supplemental retirement plan. The trust funds include investments that are actively traded and have quoted net asset values that are observable in the marketplace. Pension plan assets that are invested in equity securities, including mutual funds and fixed-income securities that are actively traded, are also included in Level 1.

Level 2 — Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly. Level 2 inputs include the following: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active so that they are traded less frequently than exchange-traded instruments, the prices are not current or principal market information is not released publicly; (c) inputs other than quoted prices that are observable such as interest rates and yield curves, prepayment speeds, credit risks and default rates; and (d) inputs derived principally from or corroborated by observable market data by correlation or other means. This category generally includes certain U.S. government and agency mortgage-backed debt securities, corporate debt securities, and derivative contracts. Pension plan assets that are derived from observable inputs, including corporate bonds and mortgage-backed securities, are reported in Level 2.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities are considered Level 3. These unobservable inputs reflect the reporting entity’s own assumptions about assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category generally includes certain private equity investments, retained residual interests in securitizations, asset-backed securities, highly structured or long-term derivative contracts, certain loans and other property

owned. Pension plan assets such as certain mortgage-backed securities that are supported by little or no market data in determining the fair value are included in Level 3.

The fair value disclosures are presented in Note 13, “Fair Value Measurements.”

- K. Off-balance-sheet credit exposures: Commitments to extend credit are agreements to lend to customers, generally having fixed expiration dates or other termination clauses that may require payment of a fee. Commercial letters of credit are conditional commitments issued to guarantee the performance of a customer to a third party. These letters of credit are issued to facilitate commerce and typically result in the commitment being funded when the underlying transaction is consummated between the customer and third party. The credit risk associated with commitments to extend credit and commercial letters of credit is essentially the same as that involved with extending loans to customers and is subject to normal credit policies. Collateral may be obtained based on management’s assessment of the customer’s creditworthiness.

NOTE 3 — LOANS AND ALLOWANCE FOR LOAN LOSSES:

A summary of loans as of December 31 follows:

Loan Type	2021		2020		2019	
	Amount	%	Amount	%	Amount	%
Real estate mortgage	\$ 764,558,538	87.7%	\$ 682,404,512	86.1%	\$ 612,625,230	86.4%
Agribusiness:						
Processing and marketing	42,726,479	4.9%	40,625,531	5.1%	45,280,343	6.4%

The Association's concentration of credit risk in various agricultural commodities is shown in the following table. While the amounts represent the Association's maximum potential credit risk as it relates to recorded loan principal, a substantial portion of the Association's lending activities is collateralized, and the Association's exposure to credit loss associated with lending activities is reduced accordingly. An estimate of the Association's credit risk exposure is considered in the determination of the allowance for loan losses.

Operation/Commodity	2021		2020		2019	
	Amount	%	Amount	%	Amount	%
Cattle	\$ 338,763,576	38.9%	\$ 305,301,002	38.5%	\$ 270,410,961	38.1%

The amount of collateral obtained, if deemed necessary upon extension of credit, is based on management's credit evaluation of the borrower. Collateral held varies but typically includes farmland and income-producing property, such as crops and livestock, as well as receivables. Long-term real estate loans are secured by the first liens on the underlying real property. Federal regulations state that long-term real estate loans are not to exceed 85 percent (or 97 percent if guaranteed by a government agency) of the property's appraised value. However, a decline in a property's market value subsequent to loan origination or advances, or other actions necessary to protect the financial interest of the Association in the collateral, may result in the loan-to-value ratios in excess of the regulatory maximum.

The Association is authorized under the Farm Credit Act to accept “advance conditional payments” (ACPs) from borrowers. To the extent the borrower’s access to such ACPs is restricted and the legal right of setoff exists, the ACPs are netted against the borrower’s related loan balance. Unrestricted advance conditional payments are included in other liabilities. ACPs are not insured, and interest is generally paid by the Association on such balances. As of December 31, 2021, there were \$10,431,913 of ACPs contained in funds held included on the balance sheet. Impaired loans are loans for which it is probable that all principal and interest will not be collected according to the contractual terms.

Nonperforming assets (including related accrued interest) and related credit quality statistics are as follows:

	December 31, 2021	December 31, 2020	December 31, 2019
Nonaccrual loans:			
Energy	\$ 2,115,427	\$ -	\$ -
Real estate mortgage	-	-	1,958,088
Agribusiness	-	1,416,452	-
Accruing loans 90 days or more past due:			
Energy	-	-	-
Real estate mortgage	-	-	-
Agribusiness	-	-	-
Total nonperforming loans	2,115,427	1,416,452	1,958,088
Other property owned	-	-	-
Total nonperforming assets	\$ 2,115,427	\$ 1,416,452	\$ 1,958,088

One credit quality indicator utilized by the Bank and the Association is the Farm Credit Administration’s Uniform Loan Classification System that categorizes loans into five categories. The categories are defined as follows:

- Acceptable – assets are expected to be fully collectible and represent the highest quality,
- Other assets especially mentioned (OAEM) – assets are currently collectible but exhibit some potential weakness,
- Substandard – assets exhibit some serious weakness in repayment capacity, equity and/or collateral pledged on the loan,
- Doubtful – assets exhibit similar weaknesses to substandard assets; however, doubtful assets have additional weaknesses in existing factors, conditions and values that make collection in full highly questionable, and
- Loss – assets are considered uncollectible.

The following table shows loans and related accrued interest classified under the Farm Credit Administration's Uniform Loan Classification System as a percentage of total loans and related accrued interest receivable by loan type as of December 31:

	<u>2021</u>		<u>2020</u>		<u>2019</u>
Real estate mortgage

Note: The recorded investment in the receivable is the face amount increased or decreased by applicable accrued interest and unamortized premium, discount, finance charges or acquisition costs, and may also reflect a previous direct write-down of the investment.

A restructuring of a debt constitutes a troubled debt restructuring if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. Troubled debt restructurings are undertaken in order to improve the likelihood of recovery on the loan and may include, but are not limited to, forgiveness of principal or interest, interest rate reductions that are lower than the current market rate for new debt with similar risk, or significant term or payment extensions.

In restructurings where principal is forgiven, the amount of the forgiveness is immediately charged off. In restructurings where accrued interest is forgiven, the interest is reversed (if current year interest) or charged off (if prior year interest). Charge-offs recorded at the modification date were \$789,250 and recoveries were \$1,084 for the year ending December 31, 2021.

The predominant form of concession granted for troubled debt restructuring includes concessions. Other types of modifications include extension of the term, principal or accrued interest reductions, interest rate decreases and delayed payments, among others. At times these terms might be offset with incremental payments, collateral or new borrower guarantees, in which case the Association assesses all of the modified terms to determine if the overall modification qualifies as a troubled debt restructuring. The Association had no troubled debt restructurings as of December 31, 2021.

	<u>December 31, 2021</u>	<u>December 31, 2020</u>
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows for operating leases	<u>\$ 79,660</u>	<u>\$ 32,442</u>
Right-of-use assets obtained in exchange for new lease obligations:		
Operating leases	<u>\$ 260,685</u>	<u>\$ 289,894</u>

Lease term and discount rate are as follows:

	<u>December 31, 2021</u>
Weighted average remaining lease term in years	
Operating leases	3.21
Weighted average discount rate	
Operating leases	2.43%

Future minimum lease payments under non-cancellable leases as of December 31, 2021, were as follows:

	<u>Operating Leases</u>	<u>Total</u>
2021	\$ -	\$ -
2022	91,737	91,737
2023	83,158	83,158
2024	82,990	82,990
2025	27,846	27,846
Thereafter	-	-
Total lease payments	\$ 285,731	\$ 285,731
Less: interest	10,869	10,869
Total	<u>\$ 274,862</u>	<u>\$ 274,862</u>

During the first quarter of 2021, the Association entered into a sales-type lease agreement in which the Association is the lessor. At the termination of the lease, the Association will grant the lessee the option to purchase the property, which was valued at \$318,059 at the inception of the lease.

Components of lease receivable were as follows:

	<u>December 31, 2021</u>
Net investment in the lease	\$ 283,064
Unguaranteed residual value of leased assets	\$ 272,898
Profit recognized at the commencement of the lease	\$ 12,636

Other information related to sales-type leases was as follows:

	<u>December 31, 2021</u>
Interest income	\$ 5,661
Cash received for amounts included in the measurement of leased assets	\$ 47,630

NOTE 5 — INVESTMENT IN THE FARM CREDIT BANK OF TEXAS

The investment in the Farm Credit Bank of Texas is a requirement of borrowing from the Bank and is carried at cost plus allocated equities in the accompanying balance sheet. Estimating the fair value of the Association's investment in the Farm Credit Bank of Texas is not practicable because the stock is not traded. The Association owned 4.05 percent, 3.52 percent, and 3.35 percent of the issued stock of the Bank as of December 31, 2021, 2020, and 2019. As of those dates, the Bank's assets totaled \$33.09 billion, \$28.23 billion, and \$25.66 billion and members' equity totaled \$2.00 billion, \$1.99 billion and \$1.84 billion. The Bank's earnings were \$254.6 million, \$251.1 million, and \$203.0 million during 2021, 2020, and 2019.

NOTE 6 — PREMISES AND EQUIPMENT:

Premises and equipment consisted of the following at December 31:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Building and improvements	\$ 3,016,768	\$ 2,866,312	\$ 2,863,390
Automobiles	570,671	564,167	531,356
Land and improvements	550,886	516,309	519,772
Furniture and equipment	283,263	269,718	272,394
Computer equipment and software	165,957	177,991	160,542
	<u>4,587,545</u>	<u>4,394,497</u>	<u>4,347,454</u>
Accumulated depreciation	<u>(1,913,221)</u>	<u>(1,824,228)</u>	<u>(1,573,845)</u>
Total	<u>\$ 2,674,324</u>	<u>\$ 2,570,269</u>	<u>\$ 2,773,609</u>

The Association owns office space in the cities of Amarillo, Pampa, Perryton, and Plainview in the state of Texas. The Association leases additional office space in Amarillo, Texas, as well as three billboards in Pampa, Texas, Canyon, Texas, and Canadian, Texas. Lease expense was \$79,660, \$32,442, and \$4,860 for 2021, 2020, and 2019, respectively.

NOTE 7 — OTHER PROPERTY OWNED, NET:

Net loss on other property owned, net consists of the following for the years ended December 31:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Loss on sale, net	\$ (151,135)	\$ (40,649)	\$ (70,981)
Operating income (expense), net	65,897	(14,297)	(16,386)
Net loss on other property owned	<u>\$ (85,238)</u>	<u>\$ (54,946)</u>	<u>\$ (87,367)</u>

The Association transferred \$645,890 to acquired property. The property was later sold for \$494,755, resulting in a net loss of \$151,135.

NOTE 8 — OTHER ASSETS AND OTHER LIABILITIES:

Other assets comprised the following at December 31:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Accounts Receivable, net	\$ 488,175	\$ 197,363	\$ 163,235
Right of Use Asset	260,685	289,894	-
Other	173	58	2,698
Total	<u>\$ 749,033</u>	<u>\$ 487,315</u>	<u>\$ 165,933</u>

Other liabilities comprised the following at December 31:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Postretirement benefits liability	\$ 1,183,739	\$ 1,180,774	\$ 1,161,529
Insurance premium payable	1,105,837	579,113	483,610
Accounts payable, net	1,038,010	81,104	143,662
Lease liability	276,292	306,967	-
Accrued leave	252,088	188,255	165,811
Other	151,624	236,879	162,432
Total	<u>\$ 4,007,590</u>	<u>\$ 2,573,092</u>	<u>\$ 2,117,044</u>

The increase in accounts payable, net is primarily due to an incentive bonus accrual of \$969,741 for 2021.

NOTE 9 — NOTE PAYABLE TO THE BANK:

The interest rate risk inherent in the Association's loan portfolio is substantially mitigated through the funding relationship with the Bank. The Bank manages interest rate risk through its direct loan pricing and asset/liability management process. The Association's indebtedness to the Bank represents borrowings by the Association to fund the majority of its loan portfolio. The indebtedness is collateralized by a pledge of substantially all of the Association's assets and is governed by a general financing agreement. The interest rate on the direct loan is based upon the Bank's cost of funding the loans the Association has outstanding to its borrowers. The indebtedness continues in effect until the expiration date of the general financing agreement, which is September 30, 2023, unless sooner terminated by the Bank upon the occurrence of an event of default, or by the Association, in the event of a breach of this agreement by the Bank, upon giving the Bank 30 calendar days' prior written notice, or in all other circumstances, upon giving the Bank 120 days' prior written notice.

The total amount and the weighted average interest rate of the Association's direct loan from the Bank at December 31, 2021, 2020, and 2019, was \$752,201,210 at 2.5 percent, \$678,846,912 at 2.4 percent and \$601,301,197 at 2.3 percent, respectively.

Under the Act, the Association is obligated to borrow only from the Bank unless the Bank approves borrowing from other funding sources. The Bank and FCA regulations have established limitations on the Association's ability to borrow funds based on specified factors or formulas relating primarily to credit quality and financial condition. At December 31, 2021, 2020, and 2019, the Association's note payable was within the specified limitations. The maximum amount the Association may borrow from the Bank as of December 31, 2021, was \$884,147,732, as defined by the general financing agreement.

In addition to borrowing limits, the financing agreement establishes certain covenants including limits on leases, investments, other debt, and dividend and patronage distributions; minimum standards for return on assets and for liquidity; and provisions for conducting business, maintaining records, reporting financial information, and establishing policies and procedures. Remedies specified in the general financing agreement associated with the covenants include additional reporting requirements, development of action plans, increases in interest rates on indebtedness, reduction of lending limits or repayment of indebtedness. As of and for the years ended December 31, 2021, 2020, and 2019, the Association was not subject to remedies associated with the covenants in the general financing agreement.

NOTE 10 — MEMBERS' EQUITY:

A description of the Association's capitalization requirements, protection mechanisms, regulatory capitalization requirements and restrictions, and equities are provided below.

Protection of certain borrower equity is provided under the Act that requires the Association, when retiring protected borrower equity, to retire such equity at par or stated value regardless of its book value. Protected borrower equity includes capital stock, participation certificates and allocated equities that were outstanding as of January 6, 1988, or were issued or allocated prior to October 6, 1988. If an association is unable to retire protected borrower equity at par value or stated value, amounts required to retire this equity would be obtained from the Insurance Fund.

In accordance with the Act and the Association's capitalization bylaws, each borrower is required to invest in the Association as a condition of borrowing. The investment in Class A capital stock (for farm loans), or participation certificates (for rural home and farm related businesses) is equal to 2 percent of the loan amount, up to a maximum amount of \$1,000. The borrower acquires ownership of the capital stock or participation certificates at the time the loan is made, usually by adding the aggregate par value of the capital stock or participation certificates to the principal amount of the related loan obligation. The capital stock or participation certificates are subject to a first lien by the Association. Retirement of such equities will generally be at the lower of par or book value, and repayment of a loan does not automatically result in retirement of the corresponding capital stock or participation certificates.

If needed to meet regulatory capital adequacy requirements, the board of directors of the Association may increase the percentage of stock requirement for each borrower up to a maximum of 10 percent of the loan amount.

Each owner of Class A capital stock is entitled to a single vote, while participation certificates provide no voting rights to their owners.

Within two years of repayment of a loan, the Association capital bylaws require the conversion of any borrower's outstanding Class A to Class C stock. Class C stock has no voting rights except in a case where a new issuance of preferred stock has been submitted

to stockholders affected by the preference. Redemption of Class C shares is made solely at the discretion of the Association's board of directors. At December 31, 2021, 2020, and 2019, the Association had no Class C stock.

All borrower stock is at-risk. As such, losses that result in impairment of capital stock or participation certificates shall be borne on a pro rata basis by all holders of Class A capital stock and participation certificates. In the event of liquidation of the Association, capital stock and participation certificates would be utilized as necessary to satisfy any remaining obligations in excess of the amounts realized on the sale or liquidation of assets. Any excess of the amounts realized on the sale or liquidation of assets over the Association's obligations to external parties and to the Bank would be distributed to the Association's stockholders.

Dividends and patronage distributions may be paid on the capital stock and participation certificates of the Association, as the board of directors may determine by resolution, subject to capitalization requirements as defined by the FCA. Amounts not distributed are retained as unallocated retained earnings.

The following patronage distributions were declared and paid in 2021, 2020, and 2019, respectively:

<u>Date Declared</u>	<u>Date Paid</u>	<u>Patronage</u>
January 2021	March 2021	\$ 8,797,866
January 2020	March 2020	\$ 8,500,000
March 2020	March 2020	\$ 29,689
April 2020	April 2020	\$ 1,263
January 2019	March 2019	\$ 8,200,000

The Farm Credit Administration sets minimum regulatory capital requirements for banks and associations. Effective January 1, 2017, new regulatory capital requirements for banks and associations were adopted. These new requirements replaced the core surplus and total surplus requirements with Common Equity Tier 1, Tier 1 Capital and Total Capital risk-based capital ratio requirements. The new requirements also replaced the existing net collateral ratio for System banks with a Tier 1 Leverage ratio and an Unallocated Retained Earnings (URE) and URE Equivalents Leverage ratio that are applicable to both the banks and associations. The Permanent Capital Ratio continues to remain in effect; however, the risk-weighted assets are calculated differently than in the past. As of December 31, 2021, the Association is not prohibited from retiring stock or distributing earnings.

The following sets forth the regulatory capital ratio requirements and ratios at December 31, 2021:

<u>Risk-weighted:</u>	<u>Regulatory Minimums</u>	<u>Regulatory Minimums with Buffer</u>	<u>As of December 31, 2021</u>
Common equity tier 1 ratio	4.50%	7.00%	14.45%
Tier 1 capital ratio	6.00%	8.50%	14.45%
Total capital ratio	8.00%	10.50%	14.76%
Permanent capital ratio	7.00%	7.00%	14.50%
<u>Non-risk-weighted:</u>			
Tier 1 leverage ratio	4.00%	5.00%	14.70%
UREE leverage ratio	1.50%	1.50%	15.89%

Risk-weighted assets have been defined by FCA Regulations as the Statement of Condition assets and off balance-sheet commitments adjusted by various percentages, depending on the level of risk inherent in the various types of assets. The primary changes that generally have the impact of increasing risk-weighted assets (decreasing risk-based regulatory capital ratios) were as follows:

- Inclusion of off-balance-sheet commitments less than 14 months

- Increased risk-weighting of most loans 90 days past due or in nonaccrual status

Risk-weighted assets is calculated differently for the permanent capital ratio (referred to herein as PCR risk-weighted assets) compared to the other risk-based capital ratios. The primary difference is the deduction of the allowance for loan losses from risk-weighted assets for the permanent capital ratio.

The ratios are based on a three-month average daily balance in accordance with FCA regulations and are calculated as follows:

- Common equity tier 1 ratio is statutory minimum purchased borrower stock, other required borrower stock held for a minimum of seven years, allocated equities held for a minimum of seven years or not subject to revolvement, unallocated retained earnings, paid-in capital, less certain regulatory required deductions including the amount of allocated investments in other System associations, and the amount of purchased investments in other System associations under the corresponding deduction approach, divided by average risk-weighted assets.
- Tier 1 capital ratio is common equity tier 1 plus non-cumulative perpetual preferred stock, divided by average risk-weighted assets.
- Total capital is Tier 1 capital plus other required borrower stock held for a minimum of five years, allocated equities held for a minimum of five years, subordinated debt and limited-life preferred stock greater than five years to maturity at issuance subject to certain limitations, allowance and reserve for credit losses under certain limitations less certain investments in other System associations under the corresponding deduction approach, divided by average risk-weighted assets.
- Permanent capital ratio (PCR) is all at-risk borrower stock, any allocated excess stock, unallocated retained earnings, paid-in capital, subordinated debt and preferred subject to certain limitations, less certain allocated and purchased investments in other System associations, divided by PCR risk-weighted assets.
- Tier 1 leverage ratio is Tier 1 capital (at least 1.5 percent must be URE and URE equivalents), including regulatory deductions, divided by average assets less regulatory deductions subject to tier 1 capital.
- UREE leverage ratio is unallocated retained earnings, paid-in capital, allocated surplus not subject to revolvement less certain regulatory required deductions including the amount of allocated investments in other System associations divided by average assets less regulatory deductions subject to tier 1 capital.

If the capital ratios fall below the total requirements, including the buffer amounts, capital distributions (equity redemptions, dividends and patronage) and discretionary senior executive bonuses are restricted or prohibited without prior FCA approval.

The components of the Association's risk-weighted capital, based on 90-day average balances, were as follows at December 31, 2021:

	Common equity tier 1 ratio	Tier 1 capital ratio	Total capital ratio	Permanent capital ratio
Numerator:				
Unallocated retained earnings	141,671,387	141,671,387	141,671,387	141,671,387
Common Cooperative Equities:				
Statutory minimum purchased borrower stock	2,177,137	2,177,137	2,177,137	2,177,137
Allowance for loan losses and reserve for credit losses subject to certain limitations*			2,834,360	
Regulatory Adjustments and Deductions:				
Amount of allocated investments in other System institutions	(12,708,391)	(12,708,391)	(12,708,391)	(12,708,391)
	131,140,133	131,140,133	133,974,493	131,140,133
Denominator:				
Risk-adjusted assets excluding allowance	920,127,457	920,127,457	920,127,457	920,127,457
Regulatory Adjustments and Deductions:				
Regulatory deductions included in total capital	(12,708,391)	(12,708,391)	(12,708,391)	(12,708,391)
Allowance for loan losses				(2,738,019)
	907,419,066	907,419,066	907,419,066	904,681,047

*Capped at 1.25 percent of risk-weighted assets and inclusive of the reserve for unfunded commitments.

The components of the Association's non-risk-weighted capital, based on 90-day average balances, were as follows at December 31, 2021:

	Tier 1 leverage ratio	UREE leverage ratio
Numerator:		
Unallocated retained earnings	141,671,387	141,671,387
Common Cooperative Equities:		
Statutory minimum purchased borrower stock	2,177,137	-
Regulatory Adjustments and Deductions:		
Amount of allocated investments in other System institutions	(12,708,391)	-
	<u>131,140,133</u>	<u>141,671,387</u>
Denominator:		
Total Assets	907,281,573	907,281,573
Regulatory Adjustments and Deductions:		
Regulatory deductions included in Tier 1 capital	(15,468,189)	(15,468,189)
	<u>891,813,384</u>	<u>891,813,384</u>

The Association's board of directors has established a Capital Adequacy Plan (Plan) that includes the capital targets that are necessary to achieve the Association's capital adequacy goals as well as the minimum permanent capital standards. The Plan monitors projected dividends, equity retirements and other actions that may decrease the Association's permanent capital. In addition to factors that must be considered in meeting the minimum standards, the board of directors also monitors the following factors: capability of management; quality of operating policies, procedures and internal controls; quality and quantity of earnings; asset quality and the adequacy of the allowance for losses to absorb potential loss within the loan portfolio; sufficiency of liquid funds; needs of an association's customer base; and any other risk-oriented activities, such as funding and interest rate risk, potential obligations under joint and several liability, contingent and off-balance-sheet liabilities or other conditions warranting additional capital. At least quarterly, management reviews the Association's goals and objectives with the board. A strong capital base, as outlined in the Plan, will afford the Association the opportunity to position itself to address the changing lending environment, and provide the highest quality service to its stockholders.

An FCA regulation empowers the FCA to direct a transfer of funds or equities by one or more System associations to another System association under specified circumstances. The Association has not been called upon to initiate any transfers and is not aware of any proposed action under this regulation.

At December 31, the Association had the following shares of Class A capital stock, Class B stock and participation certificates outstanding at a par value of \$5 per share:

	2021	2020	2019
Class A stock	415,328	401,171	398,516
Participation certificates	22,389	18,485	18,713
Total	437,717	419,656	417,229

An additional component of equity is accumulated other comprehensive income, which is reported as follows:

Accumulated Other Comprehensive Income			
	2021	2020	2019
Nonpension postretirement benefits	\$ 108,341	\$ 127,250	\$ 147,829

The Association’s accumulated other comprehensive income relates entirely to its nonpension other postretirement benefits. The following table summarizes the changes in accumulated other comprehensive income and the location on the income statement for the year ended December 31:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Accumulated other comprehensive income at January 1	\$ 127,250	\$ 147,829	\$ 294,465
Actuarial losses	(8,476)	(10,146)	(107,704)
Amortization of prior service credits included in salaries and employee benefits	(10,433)	(10,433)	(38,932)
Other comprehensive loss, net of tax	(18,909)	(20,579)	(146,636)
Accumulated other comprehensive income at December 31	<u>\$ 108,341</u>	<u>\$ 127,250</u>	<u>\$ 147,829</u>

NOTE 11 — EMPLOYEE BENEFIT PLANS:

Employee Retirement Plans: Employees of the Association participate in either the defined benefit retirement plan (DB plan) or the defined contributions plan (DC plan) and are eligible to participate in the Farm Credit Benefits Alliance 401(k) Plan. These plans are described more fully in section H of Note 2, “Summary of Significant Accounting Policies.” The structure of the District’s DB plan is characterized as multi-employer, since neither the assets, liabilities nor cost of any plan is segregated or separately accounted for by participating employers (Bank and associations). No portion of any surplus assets is available to any participating employer. As a result, participating employers of the plan only recognize as cost the required contributions for the period and a liability for any unpaid contributions required for the period of their financial statements. Plan obligations, assets and the components of annual benefit expenses are recorded and reported upon District combination only. The Association records current contributions to the DB plan as an expense in the current year.

The CEO and certain executive or highly-compensated employees in the Association are eligible to participate in a separate nonqualified supplemental 401(k) plan, named the Farm Credit Benefits Alliance Nonqualified Supplemental 401(k) Plan (supplemental 401(k) plan). This plan allows District employers to elect to participate in any or all of the following benefits:

- Restored Employer Contributions – to allow “make-up” contributions for eligible employees whose benefits to the qualified 401(k) plan were limited by the Internal Revenue Code during the year
- Elective Deferrals – to allow eligible employees to make pre-tax deferrals of compensation above and beyond any deferrals into the qualified 401(k) plan
- Discretionary Contributions – to allow participating employers to make a discretionary contribution to an eligible employee’s account in the plan, and to designate a vesting schedule

There were no supplemental 401(k) plans offered to active employees during 2021, 2020, and 2019.

The DB plan is non-contributory and benefits are based on salary and years of service. The legal name of the plan is Farm Credit Bank of Texas Pension Plan; its employer identification number is 74-1110170. The DB plan is not subject to any contractual expiration dates. The DB plan’s funding policy is to fund current year benefits expected to be earned by covered employees plus an amount to improve the accumulated benefit obligation funded status by a percentage approved by the plan sponsor. The plan sponsor is the board of the Farm Credit Bank of Texas. The “projected unit credit” actuarial method is used for both financial reporting and funding purposes. District employers have the option of providing enhanced retirement benefits, under certain conditions, within the DB plan, to facilitate reorganization and/or restructuring. The actuarial present value of vested and nonvested accumulated benefit obligation exceeded the net assets of the DB plan as of December 31, 2021.

The risks of participating in these multi-employer plans are different from single-employer plans in the following aspects:

- a. Assets contributed to the multi-employer plan by one employer may be used to provide benefits to employees of other participating employers.
- b. If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers.
- c. If the Association chooses to stop participating in some of its multi-employer plans, it may be required to pay the plan an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

The following table includes additional information regarding the funded status of the plan, the Association's contributions, and the percentage of Association contribution to total plan contributions for the years ended December 31, 2021, 2020, and 2019:

	<u>2021</u>	<u>2020</u>	<u>2019</u>
Funded status of plan	70.5%	62.6%	66.2%
Association's contribution	\$ 449,286	\$ 239,534	\$ 269,029
Percentage of Association's contribution to total contributions	3.0%	4.0%	3.3%

The funded status presented above is based on the percentage of plan assets to projected benefit obligations. DB plan funding is based on the percentage of plan assets to the accumulated benefit obligation, which was 72.0 percent, 64.3 percent and 68.0 percent at December 31, 2021, 2020, and 2019, respectively.

Other Postretirement Benefits: In addition to pension benefits, the Association provides certain health care benefits to qualifying retired employees (other postretirement benefits). These benefits are not characterized as multi-employer and, consequently, the liability for these benefits is included in other liabilities.

The following table reflects the benefit obligation, cost and actuarial assumptions for the Association's other postretirement benefits:

Retiree Welfare Benefit Plans

Disclosure Information Related to Retirement Benefits	2021	2020	2019

NOTE 12 — RELATED PARTY TRANSACTIONS:

Directors of the Association, except for any director-elected directors, are required to be borrowers/stockholders of the Association. Also, in the ordinary course of business, the Association may enter into loan origination or servicing transactions with its officers, relatives of officers and directors, or with organizations with which such persons are associated. Such loans are subject to special approval requirements contained in FCA regulations and are made on the same terms, including interest rates, amortization schedule and collateral, as those prevailing at the time for comparable transactions with unrelated borrowers.

Total loans to such persons at December 31, 2021, 2020, and 2019 for the Association amounted to \$22,521,293, \$19,425,132, and \$18,847,728. During 2021, 2020, and 2019, \$5,983,990, \$3,876,723, and \$1,836,813 of new loans were made, and repayments totaled \$2,864,157, \$1,438,837, and \$2,296,146, respectively. In the opinion of management, no such loans outstanding at December 31, 2021, 2020, and 2019 involved more than a normal risk of collectability.

Expenses included in purchased services may include purchased services such as administrative services, marketing, information systems and accounting services and allocations of expenses incurred by the Bank and passed through to the associations, such as FCSIC expenses. The Bank charges the individual associations directly for these services based on each association's proportionate usage. These expenses totaled \$46,133, \$42,682 and \$33,142 in 2021, 2020, and 2019, respectively.

The Association received patronage payments from the Bank totaling \$4,737,147, \$3,725,572, and \$2,950,273 during 2021, 2020, and 2019, respectively.

NOTE 13 — FAIR VALUE MEASUREMENTS:

Accounting guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability. See Note 2, "Summary of Significant Accounting Policies," for additional information.

Assets and liabilities measured at fair value on a nonrecurring basis at December 31, 2021, 2020, and 2019 for each of the fair value hierarchy values are summarized below:

December 31, 2021	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Assets:				
Loans	\$ -	\$ -	\$1,675,743	\$ 1,675,743
 December 31, 2020	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Assets:				
Loans	\$ -	\$ -	\$ 1,341,352	\$ 1,341,352
 December 31, 2019	Fair Value Measurement Using			Total Fair Value
	Level 1	Level 2	Level 3	
Assets:				
Loans	\$ -	\$ -	\$ 1,735,115	\$ 1,735,115

Financial assets and financial liabilities measured at carrying amounts and not measured at fair value on the balance sheets for each of the fair value hierarchy values are summarized as follows:

December 31, 2021
Fair Value Measurement Using

	Total Carrying Amount	Level 1	Level 2	Level 3	Total Fair Value
Assets:					
Cash	\$ 11,310	\$ 11,310	\$ -	\$ -	\$ 11,310
Net loans	867,598,085	-	-	865,260,603	865,260,603
Total Assets	<u>\$ 867,609,395</u>	<u>\$ 11,310</u>	<u>\$ -</u>	<u>\$ 865,260,603</u>	<u>\$ 865,271,913</u>
Liabilities:					
Note payable to Bank	\$ 752,201,210	\$ -	\$ -	\$ 750,179,143	\$ 750,179,143

December 31, 2020
Fair Value Measurement Using

	Total Carrying Amount	Level 1	Level 2	Level 3	Total Fair Value
Assets:					
Cash	\$ 13,104	\$ 13,104	\$ -	\$ -	\$ 13,104
Net loans	788,602,134	-	-	813,221,658	813,221,658
Total Assets	<u>\$ 788,615,238</u>	<u>\$ 13,104</u>	<u>\$ -</u>	<u>\$ 813,221,658</u>	<u>\$ 813,234,762</u>
Liabilities:					
Note payable to Bank	\$ 678,846,912	\$ -	\$ -	\$ 699,962,617	\$ 699,962,617

December 31, 2019
Fair Value Measurement Using

	Total Carrying Amount	Level 1	Level 2	Level 3	Total Fair Value
Assets:					
Cash	\$ 13,717	\$ 13,717	\$ -	\$ -	\$ 13,717
Net loans	705,380,470	-	-	710,107,621	710,107,621
Total Assets	<u>\$ 705,394,187</u>	<u>\$ 13,717</u>	<u>\$ -</u>	<u>\$ 710,107,621</u>	<u>\$ 710,121,338</u>
Liabilities:					
Note payable to Bank	\$ 601,301,197	\$ -	\$ -	\$ 605,319,432	\$ 605,319,432

Information about Other Financial Instrument Fair Value Measurements:

	<u>Valuation Technique(s)</u>	<u>Input</u>
Cash	Carrying value	Par/principal and appropriate interest yield
Mission-related and other investments held to maturity	Discounted cash flow	Prepayment rates Probability of default Loss severity
Loans	Discounted cash flow	Prepayment forecasts Probability of default Loss severity
Other Property Owned	Appraisal	Income and expense Comparable sales Replacement cost Comparability adjustments
Note payable to Bank	Discounted cash flow	Benchmark yield curve Derived yield spread Own credit risk
Other interest bearing liabilities	Carrying value	Par/principal and appropriate interest yield

Valuation Techniques

As more fully discussed in Note 2, “Summary of Significant Accounting Policies,” accounting guidance establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Fair values of financial instruments represent the estimated amount to be received to sell an asset or paid to transfer or extinguish a liability in active markets among willing participants at the reporting date. Due to the uncertainty of expected cash flows resulting from financial instruments, the use of different assumptions and valuation methodologies could significantly affect the estimated fair value amounts. Accordingly, certain of the estimated fair values may not be indicative of the amounts for which the financial instruments could be exchanged in a current or future market transaction. The following represent a brief summary of the valuation techniques used by the Association for assets and liabilities:

Loans Evaluated for Impairment

For certain loans evaluated for impairment under impairment guidance, the fair value is based upon the underlying collateral since the loans are collateral-dependent loans for which real estate is the collateral. The fair value measurement process uses independent appraisals and other market-based information, but in many cases it also requires significant input based on management’s knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters. As a result, a majority of these loans have fair value measurements that fall within Level 3 of the fair value hierarchy. When the value of the real estate, less estimated costs to sell, is less than the principal balance of the loan, a specific reserve is established.

Other Property Owned

Other property owned is generally classified as Level 3 of the fair value hierarchy. The process for measuring the fair value of other property owned involves the use of appraisals or other market-based information. Costs to sell represent transaction costs and are not included as a component of the asset’s fair value.

Note Payable to the Bank

The note payable to the Bank is not regularly traded; thus, quoted market prices are not available. Fair value of this instrument is discounted based on the Association's and Bank's loan rates as well as on management estimates. For the purposes of this estimate, it is assumed that the cash flow on the note is equal to the principal payments on the Association's loan receivables plus accrued

interest on the note payable. This assumption implies that earnings on the Association's interest margin are used to fund operating expenses and capital expenditures. Management has no basis to determine whether the fair values would be indicative of the value negotiated in an actual sale

NOTE 14 — COMMITMENTS AND CONTINGENCIES

In addition to those commitments and contingencies discussed in Note 2, “Summary of Significant Accounting Policies,” the Association is involved in various legal proceedings in the ordinary course of business. In the opinion of legal counsel and management, there are no legal proceedings at this time that are likely to materially affect the Association.

The Association may participate in financial instruments with off-balance sheet risk to satisfy the financing needs of its borrowers in the form of commitments to extend credit and commercial letters of credit. These financial instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized in the financial statements. Commitments to extend credit are agreements to lend to a borrower as long as there is not a violation of any condition established in the contract. Commercial letters of credit are agreements to pay a beneficiary under conditions specified in the letter of credit. Commitments and letters of credit generally have fixed expiration dates or other termination clauses and may require payment of a fee. At December 31, 2021, there were \$60,528,861 of commitments and \$488,116 of commercial letters of credit for a total outstanding commitment of \$61,016,977.

Since many of these commitments are expected to expire without being drawn upon, the total commitments do not necessarily represent future cash requirements. However, these credit-related financial instruments have off-balance sheet credit risk because their amounts are not reflected on the balance sheets until funded or drawn upon. The credit risk associated with issuing commitments and letters of credit is substantially the same as that involved in extending loans to borrowers, and management applies the same credit policies to these commitments. Upon fully funding a commitment, the credit risk amounts are equal to the contract amounts, assuming that borrowers fail completely to meet their obligations and the collateral or other security is of no value. The amount of collateral obtained, if deemed necessary upon extension of credit, is based on management’s credit evaluation of the borrower.

NOTE 15 — QUARTERLY FINANCIAL INFORMATION (UNAUDITED):

Quarterly results of operations for the years ended December 31 (in thousands) follow:

	2021				
	First	Second	Third	Fourth	Total
Net interest income	\$ 5,524	\$ 5,704	\$ 5,968	\$ 6,065	\$ 23,261

NOTE 16 — SUBSEQUENT EVENTS:

The Association has evaluated subsequent events through March 11, 2022, which is the date the financial statements were issued or available to be issued and has determined that there were no other events requiring disclosure.

DISCLOSURE INFORMATION AND INDEX

(Unaudited)

Disclosures Required by Farm Credit Administration Regulations

DESCRIPTION OF BUSINESS

The description of the territory served, the persons eligible to borrow, the types of lending activities engaged in and the financial services offered, and related Farm Credit organizations required to be disclosed in this section is incorporated herein by reference from Note 1 to the financial statements, "Organization and Operations," included in this annual report.

The descriptions of significant developments that had or could have a material impact on earnings, interest rates to borrowers, patronage, or dividends and acquisitions or dispositions of material assets, changes in the reporting entity, changes in patronage policies or practices and financial assistance provided by or to the Association through loss sharing or capital preservation agreements or from any other source, if any, required to be disclosed in this section are incorporated herein by reference from "Management's Discussion and Analysis of Financial Condition and Results of Operations," included in this annual report.

DESCRIPTION OF PROPERTY

The Plains Land Bank, FLCA (Association) serves its 17-county territory through its main administrative and lending office at 1616 S. Kentucky St., Suite C-250, Amarillo, Texas 79102-5210. Additionally, there are four branch lending offices located at: 5625 Fulton Drive, Amarillo, Texas 79109; 2526 Perryton Parkway, Pampa, Texas 79065; 800 SE Loop 143, Perryton, Texas 79070; and 3102 W. 7th Street, Plainview, Texas 79072. The Association owns the office buildings in Amarillo, Pampa, Perryton, and Plainview. The Association leases the office building on Kentucky Street in Amarillo.

LEGAL PROCEEDINGS

In the ordinary course of business, the Association is involved in various legal proceedings. In the opinion of legal counsel and management, there are no legal proceedings at this time that are likely to materially affect the financial statements of the Association.

DESCRIPTION OF CAPITAL STRUCTURE

The information required to be disclosed in this section is incorporated herein by reference from Note 10 to the financial statements, "Members' Equity," included in this annual report.

DESCRIPTION OF LIABILITIES

The description of liabilities required to be disclosed in this section is incorporated herein by reference from Note 9, "Note Payable to the Bank," Note 11, "Employee Benefit Plans," and in "Management's Discussion and Analysis of Financial Condition and Results of Operations," included in this annual report.

The description of contingent liabilities required to be disclosed in this section is incorporated herein by reference from Notes 2 and 14 to the financial statements, "Summary of Significant Accounting Policies" and "Commitments and Contingencies," respectively, included in this annual report.

RELATIONSHIP WITH THE FARM CREDIT BANK OF TEXAS

The Association's financial condition may be impacted by factors that affect the Farm Credit Bank of Texas (Bank), as discussed in Note 1 to the financial statements, "Organization and Operations," included in this annual report. The financial condition and results of operations of the Bank may materially affect the stockholders' investment in the Association.

The annual and quarterly stockholder reports of the Bank are available free of charge, upon request. These reports can be obtained by writing to Farm Credit Bank of Texas, Corporate Communications, P.O. Box 202590, Austin, Texas 78720-2590 or calling (512) 465-1881. Copies of the Bank annual and quarterly stockholder reports can also be requested by e-mailing fcf@farmcreditbank.com. The annual and quarterly stockholder reports are also available on its website at www.farmcreditbank.com.

The Association’s quarterly stockholder reports are also available free of charge, upon request. These reports will be available approximately 40 days after quarter end and can be obtained by writing to Plains Land Bank, FLCA 1616 S. Kentucky St., Suite C-250, Amarillo, Texas 79102-5210 or calling (806) 331-0926. Copies of the Association’s quarterly stockholder reports can also be requested by e-mailing hhofmann@plainslandbank.com. The Association’s annual stockholder report is available on its website at www.plainslandbank.com 75 days after the fiscal year end. Copies of the Association’s annual stockholder report can also be requested 90 days after the fiscal year end.

SELECTED FINANCIAL DATA

The selected financial data for the five years ended December 31, 2021, required to be disclosed, is incorporated herein by reference to the “Five-Year Summary of Selected Financial Data” included in this annual report to stockholders.

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

“Management’s Discussion and Analysis,” which precedes the financial statements in this annual report, is incorporated herein by reference.

DIRECTORS AND SENIOR OFFICERS

The Association’s member-elected and director-elected board of directors and senior officers are as follows:

NAME	POSITION	DATE ELECTED/ EMPLOYED	TERM EXPIRES
Lyle Miller	Chairman	2015	2024
Randy D. Darnell	Vice Chairman	2002	2023
Dennis Babcock	Director	1998	2022
Daniel Krienke	Director	1999	2023
Walter (Rusty) Henson	Director	2001	2024
Steve Rader	Director	2002	2023

A brief statement of the business and employment background of each director and senior officer is provided for informational purposes.

The following biographies of the board of directors and senior officers represent the past five year’s business experience, principal occupation and /or employment for each individual.

Lyle Miller, age 67, is an operator in Floydada, Floyd County, Texas. He is one of three partners in Four M Brothers partnership, which owns farmland and equipment. He is also one of five partners in Miller Farms Texas and one of five family members that own Hale Center Cotton Gin. Mr. Miller graduated from Floydada High School and went to college for one year following graduation. He previously served as president of the Floydada School board of trustees. Mr. Miller was elected to the Plains Land Bank board of directors in 2015 and currently serves as chairman of the board.

Randy D. Darnell, age 61, is a full-time farmer and rancher in northeast Deaf Smith and northwest Randall counties. Mr. Darnell has a Bachelor of Science degree in Ag Economics from Texas Tech University. He is a member and past president of the Canyon

Independent School District board of trustees and the construction committee, and is an investor in Lone Star Gin, LP. Mr. Darnell was elected to the Plains Land Bank board of directors in 2002 and currently serves as vice-chairman of the board.

Dennis Babcock, age 70, is a farmer and rancher in Carson and Gray counties with his two sons, experienced in both dryland and irrigated farming. Mr. Babcock has a Bachelor of Science degree in Ag Economics from West Texas State University. He currently serves as a director of Groom Irrigation Gas, Inc, and is an investor in Lone Star Gin, LP. Mr. Babcock was elected to the Plains Land Bank board of directors in 1998.

Daniel Krienke, age 71, is a farmer in Ochiltree County, experienced in both dryland and irrigated farming. He graduated from Follett High School and attended Clarendon College. Mr. Krienke is presently a director of the Texas Grain Sorghum Association and the North Plains Groundwater Conservation District. Mr. Krienke was elected to the Plains Land Bank board of directors in 1999.

Walter (Rusty) Henson, age 65, has been a farmer and rancher in Briscoe County for the last 41 years. He is the owner and manager of Henson Farms, which consists of 17,000 acres of grassland and farmland. Mr. Henson has a Bachelor of Science degree in AgriBusiness from West Texas State University, and he currently serves as a director of the Caprock Soil & Water Conservation District. Mr. Henson was first appointed to the Plains Land Bank board of directors to fill an unexpired board term in October 2000 and was then elected to the board in 2001. He currently serves as chairman of the Audit Committee.

Steve Rader, age 68, has a farm and ranch operation in Hemphill and Lipscomb counties, and operates grazing land in Ellis County, Oklahoma. Mr. Rader has a Bachelor of Science degree in General Agriculture from Oklahoma State University and was previously a partner in RNR Seeding which specializes in reclaiming oil field pipelines and locations. Mr. Rader was elected to the Plains Land Bank board of directors in 2002.

Don James, age 70, farms in Hale County. Mr. James attended Wayland Baptist University and Texas Tech University. He is a past board member of United Farm Industries in Plainview, Texas, and the Llano Estacado Regional Planning Group. Mr. James was elected to the Plains Land Bank board of directors in 2004.

Lea Stukey, CPA, age 53, is a CPA and shareholder/owner of Lewis, Kaufman, Reid, Stukey, Gattis & Co., PC, which is a CPA firm located in Plainview, Texas. Her practice consists primarily of tax planning and preparation, payroll services, and business consultation services. Mrs. Stukey is also a partner in RAPCO and owner of LAKSNothing, LLC. She holds a Bachelor of Business Administration in Accounting from West Texas A&M University and previously served as the president of the board for the Plainview Christian Academy. Mrs. Stukey was appointed to the Plains Land Bank board of directors as an outside director in December 2016 and currently serves as vice-chairwoman of the Audit Committee.

Mallory Kay Vestal, Ph.D., age 38, has been an associate professor of Agricultural Business and Economics in the Department of Agricultural Sciences at West Texas A&M University since 2018 and was an assistant professor beginning in 2012. Dr. Vestal holds a Doctor of Philosophy in Agricultural Economics and a Master of Science in Agricultural Economics from Oklahoma State University, as well as a Bachelor of Science in Agribusiness/Equine Industry and Business from West Texas A&M University. She currently serves on the board of the Texas Agricultural Cooperative Council and Southern Agricultural Economics Association. Dr. Vestal previously served as the director of judge education for the National Reining Horse Association and as a board member of the Panhandle Quarter Horse Association. Dr. Vestal was appointed to the Plains Land Bank board of directors as an outside director in December 2016 and currently serves as vice-chairwoman of the Compensation Committee.

Jerrell Key, age 58, is a farmer and rancher in Hansford and Armstrong counties, experienced in cattle, cotton, corn, and wheat. Mr. Key has a Bachelor of Science degree in Ag Economics from Texas Tech University. He currently serves on the board of the Hansford & Hutchinson FSA County Committee and Lone Star Gin, LP, and is the general manager of Adobe Walls Gin, LP. Mr. Key was elected to the Plains Land Bank board of directors in 2019 and currently serves as chairman of the Compensation Committee.

Ryan T. Berry, age 31, is the owner/operator of Berry Farms and a co-owner of Berry Brothers Farms, LLC, as well as an investor in Lone Star Gin LP. Both Berry Farms and Berry Brothers Farms, LLC produce corn, cotton, and grain sorghum. Mr. Berry holds a Bachelor of Science Degree in Agricultural and Applied Economics from Texas Tech University. He was elected to the Plains Land Bank board of directors in 2021.

Perry Kirkland, age 72, is a farmer, stockman, and agribusiness man in Oldham County. He owns and is general manager of Kirkland Feedyard, Inc., a 20,000-head custom feeding operation. Mr. Kirkland previously served as chairman of the Compensation

Committee and was elected to the board in 2012. Mr. Kirkland retired from the Plains Land Bank board of directors in June of 2021.

Kay Lynn McLaughlin, age 41, began her employment with the Association in March 2010. Mrs. McLaughlin holds a Bachelor of Business Administration, as well as a Master of Business Administration and a Master of Public Accounting degree, all from West Texas A&M University. She previously served as a loan officer, operations manager, controller, and chief financial officer for Plains Land Bank, FLCA. She was promoted to chief executive officer-elect on March 1, 2021, and then chief executive officer on October 1, 2021.

Greggory S. Lloyd, age 63, has been employed with the Farm Credit System for the past 39 years. He holds a Bachelor of Science degree and a Master of Science degree in Agricultural Economics from Texas Tech University. He previously served as vice president of the High Plains Federal Land Bank Association of Pampa and president of the Federal Land Bank Association of Amarillo. He served as executive vice president and chief credit officer of the Association until July 1, 2010, when he was promoted to CEO. Mr. Lloyd announced his intent to retire on December 31, 2021 and transitioned to chief strategy officer of the Association on October 1, 2021 through year-end 2021.

Cory W. Bruce, age 50, began his employment with the Association in March 1998. Mr. Bruce holds a Bachelor of Science degree in Plant Science and a Master of Business Administration degree in Agriculture from West Texas A&M University. He previously served as vice president/assistant branch manager of the Amarillo office and vice president/capital markets of Panhandle-Plains Land Bank, FLCA and was promoted to chief credit officer of the Association effective August 1, 2010. Mr. Bruce is currently a board member for the Canyon Economic Development Board and the West Texas A&M Ag Development Association.

Holly Hofmann, age 48, began her employment with the Association as chief financial officer in July 2021. Ms. Hofmann previously worked as the CFO for the Garrison Family of Companies, including convenience stores, fuel distribution, trucking, and a Taco Bell franchise. She holds a Bachelor of Business Administration in Accounting and a Master of Business Administration, both from Baylor University.

Kenneth Hooper, age 63, began his employment with the Association in June 1988. Mr. Hooper holds a Bachelor of Science degree from Texas A&M University. He has served as Branch President of the Plainview office and currently serves as senior vice president of Lending for Hale, Motley, Briscoe, Floyd, and Hall counties. Mr. Hooper is currently a board member for the Plainview United Way, Hale County Stock Show, and Hale County Leadership Advisory Board.

Stephen W. Donnell, age 63, began his employment with the Association in June 1994. Mr. Donnell holds a Bachelor of General Studies degree from West Texas A&M University. He previously served as senior vice president of Lending in the Amarillo Office and was promoted to regional president on October 1, 2020. Mr. Donnell is currently a member of the West Texas A&M Ag Development Association.

COMPENSATION OF DIRECTORS

Directors were compensated for their service to the Association in the form of an honorarium at the rate of \$650 per day for director meetings and committee meetings. Monthly retainers are paid to the chairman of the board and the chairman of the audit committee at a rate of \$400 and \$200 per month, respectively. Board members were additionally reimbursed for certain expenses incurred while representing the Association in an official capacity. Mileage for attending official meetings during 2021 was paid at the IRS-approved rate of 56.0 cents per mile. A copy of the travel policy is available to stockholders of the Association upon request.

Number of Days Served Associated With

Director	Board Meetings	Other Official Activities	Total Compensation 2021
Lyle Miller	12	5	\$ 14,505
Randy D. Darnell	12	5	11,381
Dennis Babcock	12	5	11,861
Daniel Krienke	11	5	14,423
Walter (Rusty) Henson	11	5	14,402
Steve Rader	11	5	12,305
Don James	12	8	15,426
Lea Stukey, CPA	12	7	13,919
Mallory Kay Vestal, Ph.D.	12	8	13,327
Jerrell Key	11	6	12,896
Ryan T. Berry	5	2	4,774
Perry Kirkland	5	3	7,285
			\$ 146,504

The aggregate compensation paid to directors in 2021, 2020, and 2019 was \$146,504, \$153,012 and \$184,358, respectively. Included in the amounts above is an additional payment of \$1,635 was paid to Perry Kirkland as a retirement gift resulting in total compensation paid of \$146,504 for 2021.

Additional detail regarding director compensation paid for committee service (which is included in the table above) is as follows for 2021:

Committee			
Director	Audit	Compensation	
Lyle Miller	\$ 6,750	\$	1,950
Randy D. Darnell	7,150		1,950
Dennis Babcock	7,150		1,950
Daniel Krienke	6,100		1,950
Walter (Rusty) Henson	6,300		1,950
Steve Rader	6,500		1,950
Don James	7,150		1,950
Lea Stukey, CPA	7,150		1,950
Mallory Kay Vestal, Ph.D.	7,150		1,950
Jerrell Key	6,500		1,950
Ryan T. Berry	2,600		-
Perry Kirkland	2,600		650
	\$ 73,100	\$	20,150

Audit and Compensation Committee meeting compensation is included with the general board meeting honorarium of \$650. The aggregate amount of reimbursement for travel, subsistence and other related expenses paid to directors and on their behalf was \$96,009, \$56,794, and \$69,128 in 2021, 2020, and 2019, respectively.

COMPENSATION OF SENIOR OFFICERS

Compensation Discussion and Analysis – Senior Officers

Overview

The primary objective of the compensation package is to create a work environment such that employees are fully engaged in the mission statement of “improving the means and well-being of farmers, ranchers, and rural life in our territory.” The compensation plan will allow the Association to attract and retain top talent and align the interest of our employees and shareholders. It is important to offer our employees a strong and competitive compensation package. The package is designed to strengthen Association productivity and employee loyalty, while building team effort as well as reward for individual accomplishment. The compensation plan includes base pay, incentive bonus, and benefits. The board of directors believes the compensation plan is competitive for our employees and brings value to our shareholders (owners). The Association will continue to strive to maintain this type of balance between employees and shareholders. Base salaries and benefits are based on market data and deemed to be competitive with other employers in the market place. The current incentive plan is administered in accordance with board approved Association policy, as recommended by the board compensation committee. The board-approved incentive plan is intended to achieve the following:

- All the employees to share a portion of the increase in stockholder value of the organization after certain performance goals have been met.
- Motivate employees to achieve and exceed the desired Association business goals over the long term.
- Reward employees for increase productivity based on their individual contributions and the overall success of the Association.
- Reinforce teamwork throughout the organization.
- Provide an overall competitive compensation opportunity so that the Association can attract, retain, and motivate high quality individuals.

The sum of funds available for the incentive bonus payout to Association employees under the plan is a set percentage of 5 percent of the year-ending net income. This amount can be decreased by the Association, each office, and individual loan officers not meeting its and/or their goals. The goals used in the plan are balanced between new loan volume and volume growth, credit quality, and other job performance areas. Incentive payments are paid in the first quarter of each year based on the performance from January 1 through December 31 of the previous year.

Chief Executive Officer (CEO) Compensation Policy

The CEO salary is set by the compensation committee and is part of the same compensation plan for all employees. Part of the compensation plan is the incentive plan, which is also the same for all employees including the CEO. The CEO does not have an employment agreement; this is the same practice for all employees. The employment of the CEO by the Association is on an “at will” relationship. This means that either the employer or the employee is free to terminate the employment relationship at any time with or without reason.

Summary Compensation Table

The following table summarizes the compensation paid to the CEO and all senior officers of the Association during 2021, 2020, and 2019. This may include other non-senior officers if their total compensation is within the top five highest paid employees. Amounts reflected in the table are presented in the year the compensation was earned.

Name of Individual or number in group (a)	Year	Salary (b)	Bonus (c)	Change in Pension Value (d)	Deferred/Perquisite (e)	Other (f)	Total
Kay Lynn McLaughlin, CEO	2021	\$ 213,275	\$ 45,770	\$ -	\$ 30,114	\$ 4,519	\$ 293,678
Greggory S. Lloyd, CEO*	2021	299,071	70,770	54,623	21,780	-	446,244
	2020	286,573	42,294	579,466	21,423	5,553	935,309
	2019	261,468	38,187	744,765	17,312	5,048	1,066,780
*Transitioned to Chief Strategy Officer (CSO) as of 10/1/2021							
Aggregate Number of Senior Officers (& other highly compensated employees, if applicable)							
5	2021	\$ 673,584	\$ 190,873	\$ 13,414	\$ 91,476	\$ 10,356	\$ 979,703
5	2020	726,528	214,316	300,969	104,587	7,371	1,353,771
5	2019	700,277	180,177	344,451	101,885	4,354	1,331,144

- (a) Aggregate number of senior officers/highly compensated individuals, excluding CEO.
(b) Gross salary, including retention plan compensation for certain senior officers.
(c) Bonuses paid within the first 30 days of the subsequent calendar year.
(d) Change in pension value represents the change in the actuarial present value of the accumulated benefit under the defined benefit pension plan, the Farm Credit Bank of Texas Pension Plan, from the prior fiscal year to the current fiscal year.
(e) Deferred/Perquisites include contributions to 401(k) and defined contribution plans, supplemental 401(k) discretionary contributions, automobile benefits and premiums paid for life insurance.
(f) Amounts in the “Other” column include unused accrued annual leave.

Disclosure of information on the total compensation paid and the arrangements of the compensation plans during the last fiscal year to any senior officer or to any other officer included in the aggregate are available and will be disclosed to shareholders of the association upon request.

Pension Benefits Table

The following table presents the total annual benefit provided from the defined benefit pension plan applicable to the CEO for the year ended December 31, 2021:

Name	Plan Name	Number of Years Credited Service	Present Value of Accumulated Benefit	Payments During 2021
Greggory S. Lloyd, CEO*	Farm Credit Bank of Texas Pension Plan	40	\$ 4,272,021	\$ 158,242

*Transitioned to CSO as of 10/1/2021

Aggregate Number of Senior Officers (& other highly compensated employees, if applicable)

1	35	\$ 2,190,328	\$ -
---	----	--------------	------

Pension Benefits Table Narrative Disclosure

The previous CEO Greggory S. Lloyd and one of the other senior officers of the Association participate in the Farm Credit Bank of Texas Pension Plan (the “Pension Plan”), which is a qualified defined benefit retirement plan. Compensation, as defined in the Pension Plan, includes wages, incentive compensation, and deferrals to the 401(k) and flexible spending account plans, but excludes

annual leave or sick leave that may be paid in cash at the time of termination, retirement, or transfer of employment, severance payments, retention bonuses, taxable fringe benefits, and any other payments. Pension Plan benefits are based on the average of monthly eligible compensation over the 60 consecutive months that produce the highest average after 1996 (“FAC60”). The Pension Plan’s benefit formula for a Normal Retirement Pension is the sum of (a) 1.65 percent of FAC60 times “Years of Benefit Service” and (b) 0.50 percent of (i) FAC60 in excess of Social Security covered compensation items and (ii) “Years of Benefit Service” (not to exceed 35). The present value of the senior officers’ accumulated Pension Plan is calculated assuming retirement had occurred at the measurement date used for financial reporting purposes with the retirement at age 65. The Pension Plan’s benefit formula for the Normal Retirement Pension assumes that the senior officer is married on the date the annuity begins, that the spouse is exactly two years younger than the senior officer and that the benefit is payable in the form of a 50 percent joint and survivor annuity. If any of those assumptions are incorrect, the benefit is recalculated to be the actuarial equivalent benefit.

Other Supplemental Retirement Plans Funded by the Association on Behalf of Senior Officers and Employees

Employees assigned Association automobiles reimburse the Association for personal miles at a board-established rate. Employees who use their personal automobiles for business purposes were reimbursed during 2021 at the IRS-approved rate of 56.0 cents per mile.

Neither the CEO nor any other senior officer received noncash compensation exceeding \$5,000 in 2021, 2020, and 2019.

Senior officers, including the CEO, are reimbursed for reasonable travel, subsistence and other related expenses while conducting Association business. A copy of the Association’s travel policy is available to shareholders upon request.

TRANSACTIONS WITH DIRECTORS AND SENIOR OFFICERS

The Association’s policies on loans to and transactions with its officers and directors, required to be disclosed in this section, are incorporated herein by reference from Note 12 to the financial statements, “Related Party Transactions,” included in this annual report.

DIRECTORS’ AND SENIOR OFFICERS’ INVOLVEMENT IN CERTAIN LEGAL PROCEEDINGS

During the past five years, none of the Association’s officers or directors has been involved in legal proceedings that are material to an evaluation of the ability or integrity of any person who served as director or senior officer on January 1, 2021, or at any time during the fiscal year just ended.

RELATIONSHIP WITH INDEPENDENT AUDITOR

The Association’s audit committee engaged the independent accounting firm of PricewaterhouseCoopers LLP (PwC) to perform the annual audit of the Association’s financial statements included in this annual report. The fees for professional services rendered for the Association by PwC during 2021 were \$116,275 for audit services performed. Other non-audit services were provided in the amount of \$900 during 2021.

RELATIONSHIP WITH UNINCORPORATED BUSINESS ENTITIES

As of March 28, 2019, the Association terminated Panhandle-Plains Land Bank Holding Co. LLC, and as of May 8, 2019, the Association has terminated the previously held relationship with Biostar B, LLC. These entities were limited liability companies, originally formed for the purpose of acquiring and managing unusual and complex collateral.

FINANCIAL STATEMENTS

The financial statements, together with the report thereon of PricewaterhouseCoopers dated March 11, 2022, and the report of management in this annual report to stockholders, are incorporated herein by reference.

MEMBER/SHAREHOLDER PRIVACY

Members’ nonpublic personal financial information is protected by Farm Credit Administration regulation. Our directors and employees are restricted from disclosing information not normally contained in published reports or press releases about the Association or its members.

**CREDIT AND SERVICES TO YOUNG, BEGINNING AND SMALL FARMERS AND RANCHERS,
AND PRODUCERS OR HARVESTERS OF AQUATIC PRODUCTS**

This Association is committed to providing sound and dependable credit to young, beginning, and small (YBS) farmers and ranchers. The Association recognizes the vital nature of YBS to the overall future well-being of the agricultural industry. To ease entry for those new to agriculture, the Association provides reasonably priced financial products and services, considers flexibility with loan approvals and servicing, works with other Farm Credit and non-System lenders, and implements outreach programs.

Mission Statement

To encourage and facilitate the entry of young, beginning, and small borrowers into agricultural operations.

Definitions for YBS farmers and ranchers are:

- *Young Farmer:* A farmer, rancher or producer or harvester of aquatic products who was age 35 or younger as of the date the loan was originally made.
- *Beginning Farmer:* A farmer, rancher or producer or harvester of aquatic products who had 10 years or less of experience at farming, ranching, or producing or harvesting aquatic products as of the date the loan was originally made.
- *Small Farmer:* A farmer, rancher or producer or harvester of aquatic products who normally generated less than \$250,000 annual gross sales of agricultural or aquatic products at the date the loan was originally made.

The following table outlines the Association’s percentage of YBS loans as a percentage of our loan portfolio as of December 31, 2021. The Ag Census information, compiled from the USDA 2017 Ag Census, is based on the number of Young, Beginning and Small operators as a percentage of total operators in the Association territory. The Association reports on the percentage of Young, Beginning and Small loans in the loan portfolio (by number) compared to the total number of loans in the portfolio. This difference in the two methods of calculation is considered to be insignificant and reasonable for comparison purposes. Also shown in the table are the goals for 2021 established by the board.

By Number					
	USDA	Goals	2021	2020	2019
Young	5.77%	16%	16.73%	17.95%	17.76%
Beginning	19.20%	32%	27.80%	29.08%	29.63%
Small	75.34%	50%	44.56%	45.22%	44.81%

The following table outlines our percentage of YBS volume as a percentage of our total loan volume as of December 31, 2021.

By Volume			
	2021	2020	2019
Young	14.16%	14.34%	15.40%
Beginning	24.71%	27.77%	32.58%
Small	35.37%	33.64%	31.74%

The Association established the following as some of the qualitative goals for 2021 in an effort to reach YBS farmers and ranchers:

- Report on a quarterly basis to the board YBS activity.
- Effectively make and service loans and provide credit related services to the YBS segment.

- The demographic study shows 5.77% of Young operators in our territory. Maintain our goal of loans to Young borrowers at 16% through 2025.
- The demographic study shows 19.20% of Beginning operators in our territory. Maintain our goal of loans to Beginning borrowers at 32% through 2025.
- The demographic study shows 75.34% of Small operators in our territory. Increase our goal of loans to Small borrowers to 50% in 2021 and target 55% into 2025.
- Provide five \$1,000 scholarships to Junior/Senior level Ag College students at WTAMU.
- Provide four \$2,000 scholarships to high school students within our territory pursuing an agriculture related degree.
- Participate in the District's YBS leader development program.
- Participation by employees, primarily loan officers, in stock shows, producer meetings, county farm demonstrations, trade shows and any other activities that reach YBS producers.
- Implement effective outreach programs to attract YBS farmers and ranchers. Special programs and events the Association has held or sponsored to meet this need include:
 - West Texas A&M University Scholarships – The Association currently provides five \$1,000 scholarships to Junior/Senior level Ag College students at West Texas A&M University. The Ag College faculty decides on the recipients. The Association criterion for the faculty is that there should be one recipient from each of the branch offices' territory.
 - Livestock Shows/Farm Shows/Rodeos – The Association will continue to provide assistance and sponsorship to various livestock shows, area farm shows and rodeos. These shows provide an opportunity to make contact with existing customers and reach potential customers.
 - Campus Visits – Association loan officers are committed to the development of YBS farmers in our area. They will continue to visit and make presentations for local agricultural students.
 - Educational Opportunities – The Association is actively involved with other lenders, producer groups, and the extension service in developing and sponsoring educational opportunities, leadership training, and business/financial training for YBS farmers and ranchers. The Association and board of directors also annually host the Canyon FFA Ag Issues Team, who give a mock presentation during one board meeting. Finally, Plains Land Bank is a sponsor of a classroom in the new West Texas A&M University Ag Complex, which was completed for the fall semester 2018.
 - West Texas A&M University Ag Development Association – Three Association officers are currently on the board of directors for the Ag Development Association. Ag Development is involved in the ongoing growth and development of a dynamic collegiate agriculture program.
 - Agriculture/Community Boards/Committees – Several Association officers are members of local agricultural (FFA, 4-H, Ag Group, County/City Ag), as well as non-agricultural committees/boards. This exposes many existing or potential YBS producers to Farm Credit and this Association.
 - TALL – The Texas Agricultural Lifetime Leadership program is sponsored by Texas A&M System AgriLife Extension Service. The Association sponsors and participates in the TALL program.
 - Online Presence – The website details the Association's commitment to identify and meet the needs of young, beginning and small operators. It features press releases on recent Association scholarship recipients, YBS programs available to applicants and The Farm Credit Young Leaders Program, to name a few. Articles targeting YBS borrowers are regularly posted to Facebook.

- Media –
 - Print: Both the District-wide portion of the *Landscapes* publication, as well as the Association insert, frequently feature articles on YBS operators. The insert also features the Association scholarship winners. *Landscapes* is mailed to existing and potential borrowers, as well as to title companies, realtors and other prospects, many of whom are eligible for the YBS program.
 - Radio: Several Association officers participate in live or recorded interviews with local radio stations to promote area agricultural (including YBS) events and programs.
 - Television: Television ads feature some of the Association’s YBS borrowers.

The YBS mission is to make a concerted and cooperative effort to finance Young, Beginning or Small farmers, ranchers and producers through a program designed to meet the needs of such applicants to the fullest extent of their credit worthiness. Association loan officers will provide instruction and guidance, as prudent lenders, to young, beginning and small farmers and ranchers in areas such as financial analysis and management and other management related areas. Specific activities and services to be provided will include Association sponsorship, co-sponsorship, participation in, or support of programs through or with FFA, FSA, commercial banks and the Texas Cooperative Extension Service that target the YBS segment. Participation will be in the form of financial help or direct personnel participation.

Loan officers will utilize when applicable the Association YBS Loan Programs and FSA guarantee programs for qualified loan applicants. The demographics information was compiled from the USDA 2017 Ag Census. The Ag Census information is based on the number of Young, Beginning and Small operators as a percentage of total operators in the Association territory. The Association reports on the percentage of Young, Beginning and Small loans in the loan portfolio (by number) compared to the total number of loans in the portfolio. The difference in the two methods of calculation is considered to be insignificant and thus reasonable for comparison purposes. The CCO will monitor and oversee the Association YBS activity.

Quarterly reports are provided to the Association board of directors detailing the number and volume of YBS customers in the portfolio. The Association also reports all the YBS activity to the board on a quarterly basis.
